Philosophy 115: Critical Reasoning

Winter Quarter 2014

Instructor: Jason Benchimol | jason.benchimol@bellevuecollege.edu | 425-564-2046

This is an online course. There are no meeting dates or times. The course will start on 6 Jan 2014 and will end on 26 Mar 2014.

COURSE OVERVIEW

We encounter arguments in all spheres of our daily lives. Arguments, whether made by family members, scientists, politicians, or media figures, are tendered in support of some position or other. This course is designed to introduce you to the various forms of argumentation and the ways to assess the strengths/limitations of those arguments. By the end of the course, you should be able to extract arguments from a variety of sources and offer a philosophical analysis of each.

GOALS AND OBJECTIVES

- Development of the ability to identify different forms of argument
- Development of the ability to extract and reconstruct arguments from different media
- Development of strategies for critically evaluating arguments
- Practice the development of analytical writing skills
- Development of the philosophical vocabulary necessary to practice effective critical thinking

REQUIRED TEXT

Richard Feldman, *Reason and Argument* (2nd ed), Upper Saddle River, NJ: Prentice Hall, 1999. ISBN: 0-13-624602-8

GRADES/ASSESSMENT

Your final grade will be based on points earned in the following categories:

Homework Assignments (5): 90 points possible

Quizzes (5): 120 points possible

Exercises (25): 100 points possible (4 points each)

Midterm Exam: 100 points

Final Exam: 100 points

During the quarter, it will be possible to earn up to 510 points. To be guaranteed a final grade of 'A-' or higher, a student will need to earn at least 410 points (roughly 80% of the total possible points). To be guaranteed a final grade of 'B-' or higher, a student will need to earn at least 320 points (roughly 60% of the total possible points). To be guaranteed a final

grade of 'C-' or higher, a student will need to earn at least 255 points (50% of the total possible points). Any student who earns fewer than 255 points will receive a final grade that is lower than 'C-'. **Please note the nontraditional nature of this grade translation scale.**

THIS IS AN ONLINE COURSE

It is the sole responsibility of the student to ensure that he or she has access to a reliable Internet connection for purposes of working through the course. It is the sole responsibility of the student to ensure that he or she is aware when graded work is available and when it is due. I assume that students are logging in to the course site on a daily basis (including weekends and holidays). An inability to connect to the Internet or to the Canvas site (whether this is due to a problem on the user's end or the server's end) will not be accepted as an excuse for failing to turn in work on time.

LATE POLICY - READ CAREFULLY

Any points earned on work that is marked late by the Canvas system will not count towards a student's final grade. The Canvas system will mark work as late if it is turned in at the very last minute it is due. No points will be credited towards a student's final grade for work that is marked late, regardless of the reason why it was submitted late.

I kindly ask that students not request credit for work that has been submitted late. Please do not tell me why your work was submitted late. The final grade translation scale has 'roominess' built into it to account for lateness: unlike courses that utilize more traditional grade translation scales, it is not necessary to earn at least 90% of the possible points to earn a grade of at least 'A-'. Infrequent lateness will not seriously jeopardize a student's final grade.

Again - please do not request credit for work that has been submitted late, and please do not tell me why your work was submitted late. In the event that you've had to submit your work late, for whatever reason, you will not be able to receive credit towards your final grade for it.

PASSING THE COURSE

In order to earn a passing grade (where 'passing grade' is defined as a final letter grade of C- or higher) in this course, a student must:

- (1) earn at least 255 points; and
- (2) submit all five (5) homework assignments; and
- (3) submit all five (5) quizzes; and
- (4) submit at least fifteen (15) of the exercises; and
- (5) complete both exams.

These five requirements, taken together, are the *minimum requirements* for passing the course with a grade of 'C-' or higher. Any student who does not fulfill one of these requirements will be at risk for course failure.

The best way to ensure that you'll pass the course with a grade of 'C-' or higher is to try to earn as many points as you can, and to submit all the graded work on time. It is in each student's best interest NOT to miss any work or to turn in any work late.
