Welcome to ANTH& 205 Online - Biological Anthropology

SYLLABUS

Winter 2017 - Bellevue College

COURSE INFORMATION:

ANTH& 205 - Biological Anthropology - Section A - Item #5059

ANTH& 205 is worth 5 Science Credits

All of our learning is completed online (there is no need to come to campus).

WHO IS TEACHING THIS COURSE?

Hello! and welcome to ANTH& 205! I'm Dr. Nancy Gonlin and I look forward to teaching you this quarter. I'm a Registered Professional Archaeologist (RPA) who is trained in all 4 fields of Anthropology: Archaeology, Biological Anthropology, Cultural Anthropology, and Linguistics. It's rewarding to be able to teach about the major subdiscipline of biological anthropology.

Please feel free to contact me through Canvas messaging, or post a general question in the Discussion Board titled "Course Questions."

WHAT IS THIS COURSE ALL ABOUT?

Anthropology is the holistic study of our species, Homo sapiens or “Wise ones.” Anthropologists combine methods, theories, and data from the natural sciences, social sciences, and the humanities to examine the human experience in the broadest framework possible. Anthropology courses explore human biology, origins, prehistory, and cultural diversity. This class focuses on humans as bio-cultural organisms, emphasizing an understanding of humans from a holistic, evolutionary, comparative anthropological perspective. Biological Anthropology is also known as Physical Anthropology or BioAnthropology.
We will also discuss how biological anthropologists go about collecting their data, and the rewards and challenges of conducting fieldwork in bioanthropology.

**HOW IS THIS COURSE ORGANIZED?**

There are 10 modules with course content and a Start Here module with course information. Each week, we'll cover a number of major topics in anthropology that complement each other.

During the 11th week, you'll have time to study for the comprehensive final exam which will be due on the first day of the final exam period.

You should expect to commit at least 5 hours per week for IN-CLASS (meaning online) assignments and tests. Please allow yourself at least another 5 hours per week for reading the textbook, other assigned readings, and viewing media.

**WHAT ARE THE OUTCOMES FOR THIS COURSE?**

If all components of this course are successfully completed, you will be able to:

1. Articulate an understanding of the breadth of anthropology, its main fields (archaeology, biological anthropology, cultural anthropology, and linguistics)

2. Demonstrate an understanding of the historical contexts and consequences of natural science and social science concepts developed for and directed at a holistic and comparative approach to human behavior.

3. Recognize, identify and use the scientific method, in particular the principles of biocultural evolution, and to distinguish coherent arguments based on such principles from other claims.

4. Show knowledge of the general elementary principles of molecular, Mendelian and population genetics and their synthesis with evolutionary explanation.

5. Apply contemporary concepts in human biocultural variation, and distinguish such approaches from older paradigmatic formulations.

6. Recognize behaviors found throughout the primate order with particular attention to the social ecology of primate behavior.
7. Compare the gross anatomy of modern hominids & non-human primates and gain knowledge of their taxonomic classification.

8. Demonstrate detailed paleoanthropological knowledge of fossil hominoids and hominids, enabling the contrast, comparison and construction of hypothetical phylogenetic interpretations and the selective evaluation of competing theories of hominization and their ties to the sciences and humanities.

WHAT IS THE COURSE CATALOG DESCRIPTION for ANTH& 205?

Biological Anthropology (ANTH& 205) offers an anthropological view of how human biological characteristics arose, our relation to non-human primates, and how we continue to be shaped by evolutionary forces. Major topics include human genetics, adaptation, monkeys, apes and prosimians, fossil evidence for human evolution, and biological diversity in contemporary human populations. ANTH& 205 is a 5-credit course that counts as a science credit. (Please note that either ANTH& 205 OR ANTH& 215 with Lab may be taken for credit, but not both.) This class does not have a lab portion.

WHAT IS THE RHYTHM OF THIS COURSE?

READ THIS SECTION VERY CAREFULLY

IF YOU CANNOT ADJUST YOUR SCHEDULE TO THE RHYTHM OF THE CLASS, YOU WILL HAVE DIFFICULTY SUCCEEDING IN THIS COURSE. DEADLINES ARE FINAL.

Only ON-TIME ASSIGNMENTS ARE ACCEPTED.

The on-line class has a very different rhythm from on-campus classes, and each on-line course is different from other on-line courses. In this class, for Modules 1 – 10, the first
day of the ‘on-line week’ begins on a Thursday morning at 12:01 AM and runs until a Wednesday night at 11:59 PM when topics for that week are concluded and all assignments must be completed.

Here are the major components to the course: 1) reading the textbook; 2) viewing the PowerPoint slides which are not narrated; 3) viewing various media; 4) discussions; 5) quizzes; 6) course evaluation; and 7) a comprehensive final exam.

1) **Reading the Textbook**: it will be extremely difficult to pass this course without reading the textbook. It is your responsibility to purchase the textbook. It is up to you to decide the best time to complete each week’s assigned readings, but they should be completed before other assignments are due in the same week.

2) **Viewing the PowerPoints**: For each major section of the course, there are accompanying PowerPoint slides that you can download and/or print. The PowerPoint slides come from the textbook publisher and there are a few PowerPoints that your professor has posted. These slides are not narrated so that you can proceed at your own pace.

3) **Viewing Media Links**: A number of short media presentations (YouTube, TedTalks, etc.) are incorporated into each week’s materials. Please be sure to view the links before completing discussions and quizzes.

4) **Discussions**: There are ten discussions in this course. After preparing for each discussion by completing background research, each discussion has three main parts. First, you make an initial post (findings from your analysis/research and scientific consideration about the discussion topic) before you reply to your peers. This initial post should be submitted by SUNDAY. Second, you need to read at least 15 initial posts of other students in class. As the professor, it is possible to see how many postings each student has viewed. Third, each student is to make a minimum of two different replies on the initial posts of other students in the latter part of the week, up until 11:59 PM on Wednesday night when the discussion board closes. Replies should be submitted after your initial post has been made and after you have had a chance to read the posts of other students.

No late initial posts or replies are accepted for any reasons, so please do not ask the professor to make exceptions just for you. Deadlines are clearly marked.

5) **Quizzes**: A quiz can be taken any time during the online week, but it closes on a Wednesday night at 11:59 PM. There are 10 quizzes and each is worth 60 points. Sixty minutes is allotted to complete a quiz. No late quizzes are accepted for any reason.
order to submit the quiz on time, it needs to be started at least 60 minutes before the due date/time. All quizzes must be submitted on time to count for credit. Please do not ask for extensions since they will not be granted.

6) Course Evaluation: Your feedback is highly valued. During the latter part of the course, you will receive an email from the college (at your college email address) that provides a link to complete the official course evaluation.

7) Final Exam: There is a comprehensive final exam that will be available during the end of the course. It must be submitted at the very latest by TUESDAY, MARCH 21. The final will focus on the textbook chapters and consist of 100 multiple choice questions, cumulatively worth 200 points.

PLEASE NOTE: THERE IS NO EXTRA-CREDIT OFFERED IN THIS COURSE.

IF YOU NEED HELP, PLEASE ASK THE PROFESSOR OR UTILIZE THE FREE TUTORING SERVICES OF THE COLLEGE.

WHAT GENERAL EDUCATION REQUIREMENTS ARE FULFILLED BY THIS COURSE?

This course fulfills the general requirement of "Creative and Critical Thinking," and specifically "Scientific Inquiry - Nature of Science."

HOW CAN I BE ENVIRONMENTALLY-FRIENDLY AS A STUDENT?

Student Sustainability Guidelines: “Students are expected to make decisions that have the smallest environmental impact while maximizing student learning. These decisions include:

- Think before printing documents for this class, adjust printable margins, print double-sided & reuse paper for scrap paper.
- Turn in papers electronically or when necessary turn in printed assignments double-sided, single-spaced and using narrow margins of at least .75 inches.
- Recycle all paper, bottles, and cans; compost food & materials from the cafeteria.
- Adjust the power settings on your personal computer so the monitor and CPU will sleep after 20 minutes of inactivity and unplug all personal electronic devices when not in use.
WHAT ARE THE REQUIREMENTS FOR THIS COURSE?

Materials in the Start Here Module: You are required to review all materials in the Start Here module, including this syllabus, course schedule, the Procedures and Guidelines of the Social Science Division, and all other documents in the module. Enrollment in the course constitutes an agreement to abide by the policies set forth in these items. By the end of the first online week of the course, you should submit the Course Form to your professor to indicate you understand how the course works and how your performance will be assessed.

Reading: It is absolutely essential that you read the textbook and assigned articles. You are responsible for your own learning and should take a vested interest in doing the best you can. Yes, you need to buy the textbook! Questions? Please ask.

Viewing PowerPoints: The publisher has provided PowerPoints for each chapter that complement the textbook. These lectures are not narrated so that you can go through them at your own pace. (If you have a documented need for narrated lectures, please let your professor know as soon as possible.)

Viewing Media Links: For each week of the course, media links are posted that complement course materials. This visual/oral information enhances course content.

Discussions: This course will involve discussions with your classmates. For each discussion, you have questions to consider, posts to view, and two replies to contribute. Your initial post (due on Sundays), reading others’ posts, and replies (due by Wednesdays) are critical for classroom participation and for excelling on quizzes. You should read at least 15 initial posts for any discussion before posting replies to others.

Quizzes: A major part of your course grade will be derived from ten quizzes. Questions come from assigned readings, PowerPoints, media viewings, handouts, discussions, activities, and any other instructional material presented in class. It is in your best interest to be prepared and to complete each quiz in the allotted time and by each deadline. No late quizzes are accepted for any reason.

Course Evaluation: The official course evaluation must be completed during the latter part of the course. A link will be provided through the college in your BC email.

Final Exam: A final exam will be administered at the end of the quarter. Please see the Finals Week Module on Canvas for more information.
WHAT ACCOMMODATIONS FOR DISABILITY DOES THE COLLEGE HAVE, SHOULD I NEED ONE?

ARE THERE MAKE-UP QUIZZES AND DISCUSSIONS IF I MISS A DEADLINE?

If you are requesting a make-up quiz or discussion, because you know in advance that you will not be able to complete an assessment on time for a legitimate reason, you will need to send an e-mail ahead of time explaining why you need to miss the deadline, and you will be required to provide appropriate legitimate documentation to explain your absence (examples: surgery, extended court appearance, jury duty).

Vacation, work, attendance at social activities, weddings, minor health issues, sleeping in, picking up someone from the airport, forgetting the deadline, a flat tire, etc. are not valid excuses for missing deadlines for quizzes and/or discussions and you will not be able to make up assessments for these reasons.

Consideration for make-ups is provided ONLY if you have contacted your professor BEFORE the deadline AND you have provided legitimate documentation. It is in your best interest to make all deadlines since there is no guarantee that your circumstances warrant special consideration. Late work submitted without prior approval does not count for credit.

WHAT IF THERE IS A LAST MINUTE EMERGENCY WHEN A QUIZ OR DISCUSSION IS DUE?

If you are extremely sick or experience some other misfortune on the day of a quiz, you must contact the professor as soon as possible. If you wait until after the quiz or discussion was due to explain your absence or ask to make-up work, your request will not be accommodated, regardless of your excuse. Documentation will be required (see above).

Any other kind of emergency request will be dealt with on a case-by-case basis. It is always important to contact your professor as soon as possible. To request an accommodation, you will need to write a letter stating why you were unable to take the quiz or complete the discussion, evidence to support your claim, and an explanation of why your request should be granted. As difficult as it may be if your family unfortunately experiences a death, it will be necessary to provide appropriate documentation.

A make-up quiz is composed of several essay questions and must be taken as soon as possible after the quiz deadline has passed. No notes, textbook, or other materials/resources are allowed as the make-up quiz is closed book. The professor may request that you take the quiz at a testing facility under monitored conditions.

HOW DO I RECEIVE MY FINAL GRADE?

Students must complete all course requirements within the quarter in which the student enrolled before a final course grade will be issued. “Official grades are available about 1 week after the quarter ends. Several ways to obtain your grades are:

1. Website: [www.bellevuecollege.edu](http://www.bellevuecollege.edu) (Links to an external site.)

2. Kiosk: Student Services Bldg. or Campus Information Center

3. Mail: leave an envelope (stamped, self-addressed) at the Student Service Center, with your Student ID #.

4. In person: Student Service Center.”

Once final grades are submitted, there are no changes to one’s grade.
HOW DO I WITHDRAW FROM CLASS IF NECESSARY?

The professor cannot withdraw you from class – you must initiate this process. You can withdraw from class for any reason at any point UP UNTIL Wednesday, July 27. After that date, it will not be possible to withdraw from class. Please be aware that non-attendance in a course does not constitute withdrawal and is reason for failing a course. Be sure to take note of the ramifications for withdrawing from a course. Please review the withdrawal procedures so that you know how this process works:

http://www.bellevuecollege.edu/policies/2/2450P_Withdrawal_from_a_Course_(Procedures).asp (Links to an external site.)

WHAT OTHER INFORMATION DO I NEED TO KNOW ABOUT THIS COURSE?

Only basic course information is contained in this syllabus. There are other course materials which will assist you in understanding course and college policies. Please go over all documents in the ‘Start Here’ Module. It is your responsibility to understand all policies and procedures. Enrollment in the course constitutes an agreement to be aware of all policies and to abide by all policies. Please let Dr. G know if you have questions at any point in the quarter.
