BC Adds Two New Bachelor's Degrees

Bellevue College now offers eight bachelor's degrees including the most recently

approved Bachelor of Applied Science (BAS) degrees

in Applied Accounting and Molecular Biosciences.

The **BAS in Applied Accounting** starting this fall exposes students to an understanding of operational and financial accounting and offers them an opportunity to work in a wide range of accounting capacities in private, government and non-profit organizations. Graduates of this program may apply to graduate schools or continue earning credits needed to sit for the CPA exam.

The **Molecular Biosciences BAS** degree (beginning Fall 2016) encompasses the study of molecules that build living cells and organisms and the complex network of chemical reactions and physical processes connecting them. Graduates have the opportunity to work in pharmacology, medicine, biochemistry, molecular biology, neuroscience and food chemistry.

Other baccalaureate offerings at BC include BAS degrees in Data Analytics, Healthcare Technology & Management, Information Systems & Technology, and Radiation & Imaging Sciences. Additionally, we offer a Bachelor of Applied Arts in Interior Design and a Bachelor of Science degree (RN to BSN) in Nursing. For more information about our full range of degrees, visit our website at www.bellevuecollege.edu/programs/degrees/bachelor/.

The Reading Lab's New Approach: Class Visits Across Disciplines

As part of Bellevue College's ongoing efforts to ensure student success, BC's Reading Lab, located in the Academic Success Center, is offering in class visits to teach useful reading strategies. The goal is to reach more students across disciplines, often utilizing texts within the class syllabus. The 50-minute workshops include such topics as "Tips for Reading a Textbook," "Previewing a Text," "The Art of Annotating," "Summarizing a Text," "Help! My Reading Homework is Boring! (Connecting with Difficult Texts)," and "Study Tips For YOUR Learning Style (Metacognition and Learning Strategies)".

For more about student services available through our Academic Success Center, please visit: www.bellevuecollege.edu/asc/.

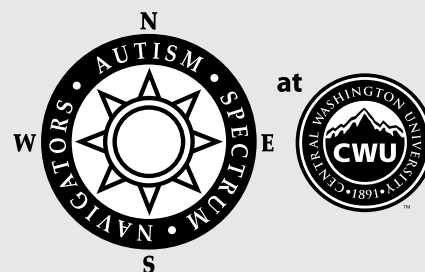

BC's Autism Spectrum Navigators Program Expands to Central Washington University

Autistic students at the Central Washington University Ellensburg campus are benefiting from the Autism Spectrum Navigator program, developed four years ago by Bellevue College faculty. A partnership of the two colleges helps autistic students access college programs, services and improve communication with instructors.

Students in the BC program have been able to attend support meetings each week with trained peer mentors to help

with group classes and discussions, and their parents have been able to receive training. With more than 200 autistic students enrolled in Bellevue College, the program has helped dozens of BC students achieve their academic goals.

Sara Gardner, ASN program director and instructor, said she and other members are now helping CWU implement the same program protocols to create a similar network for dormitory living and other situations that may not exist

at BC because it is a commuter-college. The program has been so successful, "It just makes sense for BC to share this knowledge with other institutions so that other students can also benefit," Gardner said. Learn more about our ASN program at www.bellevuecollege.edu/autismspectrumnavigators/.

The information is available on the Enrollment Calendar at www.bellevuecollege.edu/enrollment/calendar/deadlines/. If the college drops you from classes for disciplinary reasons you will not be eligible for a refund. Some fees are identified as nonrefundable in the class listings. Visit www.bellevuecollege.edu/tuition/ for more information about refunds.

Admission to or registration for classes, conferring of degrees, and issuance of academic transcripts may be withheld for failure to meet financial obligations to the college and may result in the account being sent to a collection service (BC Policy 5150). English – Combination Classes

ARTS & HUMANITIES DIVISION

The English Department's "combination classes" give students the opportunity to approach two topics at the same time to improve their skills and understanding of both. For example, in a 10-credit composition and literature combination, students read, discuss, analyze, and write about significant literary works. The Department recommends that students in combination classes have college-level placement unless otherwise specified.

ENGLISH COMPOSITION I AND CRITICAL READING IN THE HUMANITIES • 11 OR 12 CR

Interdisciplinary Studies

SOCIAL SCIENCE DIVISION

Interdisciplinary Studies combines the study of several subjects into one integrated course or "learning community," usually for ten or more credits. Each IDS course features a theme that forms a common thread across disciplines. The focus of these courses is you. Students learn with each other and from each other by discussing readings in small groups (seminars), taking part in group activities, and, in some courses, by taking field trips. These programs emphasize the process of learning as well as course content. The student centered, discussion-oriented format encourages and supports different points of view and creates a social climate that promotes collaborative learning.

Competency Based Online (CBO) Classes

Section CBO is a 'Competency Based Online' class. Students participate in a self-paced online course with the support of a student Navigator. Students will complete a pre-test to identify their strengths and weaknesses, allowing them to fast forward through course topics that they understand well. Once proven competent in all course topics, students receive credit and can move on; instructor permission required. For more info, go to: www.bellevuecollege.edu/ibit/degrees/certificate/cbo/.
