# Your Educational Investment

**Bellevue College is an excellent educational value, providing high academic quality and affordable tuition.**

## A college education:

- › Secures your economic future: the earnings gap between young adults with and without bachelor's degrees has stretched to its widest level in nearly half a century
- › Provides an expanded understanding of the world and personal growth
- › Exposes you to new subjects and discovery of an interest, passion or aptitude you did not know you possess

## Attending Bellevue College helps you:

- › Pay lower tuition rates for your first two years of college
- › Get the basic classes completed before transferring to a university
- › Reduce and/or postpone student loan debt, potentially saving thousands of dollars for those who need financial assistance

## How much will it cost?

**Attending BC costs about one-third** the cost of attending a four-year Washington state college like the University of Washington, based on the average cost to attend for two years (about 90 credits) and you can earn an associate's degree in the process!

1/3

Educational Institution	Cost for Two Years
Bellevue College (Associate Degree)	\$8,958 + fees*
Public Four-Year University (~90 credits)	\$22,640 + fees**

Please check [www.bellevuecollege.edu/tuition/](http://www.bellevuecollege.edu/tuition/) for Non-Resident, International and Bachelor's degree rates.

*\*Rate based on resident tuition effective at time of publishing. Figure does not include summer quarter. Always check the college website for the most current information. \*\*Figure based on the average cost for Washington residents to attend a Washington state college.*

**Lower cost does not mean lower quality.**

Research has shown that our transfer students do as well or better than students who start directly at a four-year university.

**"My parents saved more than \$100,000 by sending me and my siblings to Bellevue College for our first two years of college."**

## English – Combination Classes

### ARTS & HUMANITIES DIVISION

The English Department's "combination classes" give students the opportunity to approach two topics at the same time to improve their skills and understanding of both. For example, in a 10-credit composition and literature combination, students read, discuss, analyze, and write about significant literary works. The Department recommends that students in combination classes have college-level placement unless otherwise specified.

**Interdisciplinary Studies****SOCIAL SCIENCE DIVISION**

Interdisciplinary Studies combines the study of several subjects into one integrated course or "learning community," usually for ten or more credits. Each IDS course features a theme that forms a common thread across disciplines. The focus of these courses is you. Students learn with each other and from each other by discussing readings in small groups (seminars), taking part in group activities, and, in some courses, by taking field trips. These programs emphasize the process of learning as well as course content. The student centered, discussion-oriented format encourages and supports different points of view and creates a social climate that promotes collaborative learning.
