Data Analytics BAS, BC's Sixth Bachelor's, to Begin Classes in the Fall

Bellevue College has added a sixth bachelor's degree: a bachelor's of applied science degree in Data Analytics. Data Analytics is the science of examining raw data with the purpose of drawing conclusions about that information. The program will officially begin with classes in the fall of 2014.

"Data Analytics is an exciting, emerging field," said Shanon Reedy, Data Analytics BAS program manager, "We are delighted to bring this BAS program to the student's here at Bellevue College and surrounding community and technical colleges."

According to Sylvia Unwin, assistant dean of the Institute for Business and Information Technology (IBIT), "This program was a collaboration of several disciplines across the campus such as business, communication, information technology and statistics. It was teamwork and a partnership that worked together in collaboration to develop a new and excit-

ing program. Just as analytics can be applied across disciplines, so does this new degree."

Modern data analytics brings together tools and techniques from business, communication, graphic arts, information technology and statistics to collect, mine, interpret and represent large datasets to illustrate concepts and inform decisions. Students with an associate's degree in Applied Accounting, Business Management or Marketing, Information Systems, Sustainable Business, Business Administration Transfer or Computer Science Transfer (or equivalent credits) may find the degree a pathway to a successful career. Graduates may pursue work as data analysts, data technicians, and in some circumstances, data managers, in a wide range of organizations and industries.

Visit depts.bellevuecollege.edu/ibit/ist/data-analytics/ for more information and application details.

Annual Earth Week Celebration Packed with Activity

One jam-packed week of events at Bellevue College will celebrate Earth Week April 21-25. If tradition continues, it will be an educational exercise as well as a playful one, with lectures, a film series, a farmers market, and perhaps even a bike and electric vehicle show.

Earth Week, sponsored by BC's Sustainability and Science Association and Office of Sustainability, began about a dozen years ago as an effort to promote environmental awareness and sustainable use of our planet's resources, timed to coincide with

Earth Day celebrations around the world, which occurs April 22 this year.

From engaging students in discussions on ecological issues to learning about innovative ways to implement a sustainable lifestyle, the goal is to produce exciting and educational events to inspire and bring environmental and sustainability awareness to BC students.

"Earth Week gives our students and the public the opportunity to learn more about how sustainability and environmental

issues are connected to everything we do," said Dr. Robert Viens, dean of the college's Science Division and organizer of Earth Week. "It's vital for the college to incorporate this ethic into our teaching to provide our students the skills they need to live and work in a healthy, sustainable world."

Payment Information

Tuition and fees must be paid within seven (7) calendar days from the first day you register for classes OR by the first day of the quarter, whichever comes first. Classes may be dropped by the Registration Office for non-payment. Adding then dropping and re-registering for the same class before the quarter begins does not extend or renew the seven (7) original calendar days. **Registrations on or after the first day of the quarter require immediate payment at the time of registration.** If you register after the third day of the quarter, you must obtain a blue permission card from the instructor to enroll. If you register on or after April 21, you must obtain a red permission card from the instructor and pay a late registration fee for each course in addition to regular tuition and fees. You are responsible for learning the exact amount of tuition and fees due.

Find this information from your class schedule online at www.bellevuecollege.edu/services/schedule.asp.

You may pay your tuition and fees by VISA or MasterCard online at <https://www.ctc.edu/-/bellevue/wccba/wac600.html> or at the cashier's office in the Student Services Building. You may pay by check through the mail, or by check or cash at the cashier's office. You are responsible for verifying that payment has been made; for example, if you are receiving financial aid that comes directly to the college.

Refunds for College Withdrawal or Dropped Classes

If you withdraw from the college or drop classes, you may be eligible for a refund. The college begins to process refunds after the fifth day of classes. A processing fee is deducted from the refund amount. The amount refunded is based on your withdrawal or drop date for courses that begin the first week of the quarter. See calendar (p. 5) for deadlines for 100% and 50% refunds. Classes with alternate start and end dates are governed by a different refund policy. The information is available on the Enrollment Calendar at www.bellevuecollege.edu/enrollment/calendar/deadlines/. If the college drops you from classes for disciplinary reasons you will not be eligible for a refund. Some fees are identified as nonrefundable in the class listings. Self-supporting programs may have different refund policies. Contact the program office for details. Refunds under \$25 will not be processed but will be applied to the next academic quarter. Visit www.bellevuecollege.edu/enrollment/tuition/ for more information about refunds.

Drop for Non-Payment

Non-payment of tuition and course-related fees (including returned check and/or credit cards) may result in the student being withdrawn from some or all classes. (BC Policy 7250). A withdrawal fee will be charged if you have ever been dropped for non-payment in the past. Returned checks and/or credit card charges are assessed a fee.

Admission to or registration for classes, conferring of degrees, and issuance of academic transcripts may be withheld for failure to meet financial obligations to the college and may result in the account being sent to a collection service (BC Policy 5150). All collection fees are the responsibility of the check/credit card writer and/or the student. If a student writes three checks (including third-party checks) which are returned, his/ her privilege of check-writing will be denied.

Interdisciplinary Studies

ARTS & HUMANITIES DIVISION

Interdisciplinary Studies combines the study of several subjects into one integrated course or "learning community," usually for ten or more credits. Each IDS course features a theme that forms a common thread across disciplines. The focus of these courses is you. Students learn with each other and from each other by discussing readings in small groups (seminars), taking part in group activities, and, in some courses, by taking field trips. These programs emphasize the process of learning as well as course content. The student centered, discussion-oriented format encourages and supports different points of view and creates a social climate that promotes collaborative learning.

ALONE TOGETHER: IDENTITY AND WRITING IN THE AGE OF SOCIAL MEDIA • 10 CR

In the age of social networking, are we more than the sum of our "Likes" and status updates? What part of our identity, individual and collective, is digital? Wrestle with whether life on the screen, --and by extension, popular culture--shapes society, or if society defines popular culture by studying literature, television, music, film, and more. Themes include social construction, development of self in community, advertising, media studies, social problems, and the conscious creation of identity.
