Your Educational Investment

Bellevue College is an excellent educational value, providing high academic quality and affordable tuition.

A college education:

- Secures your economic future: the earnings gap between young adults with and without bachelor's degrees has stretched to its widest level in nearly half a century
- Provides an expanded understanding of the world and personal growth
- Exposes you to new subjects and discovery of an interest, passion or aptitude you did not know you possess

Attending Bellevue College helps you:

- Pay lower tuition rates for your first two years of college
- Get the basic classes completed before transferring to a university
- Reduce and/or postpone student loan debt, potentially saving thousands of dollars for those who need financial assistance

How much will it cost?

Attending BC costs about one-third the cost of attending a four-year Washington state college like the University of Washington, based on the average cost to attend for two years (about 90 credits) and you can earn an associate's degree in the process!

1/3

Educational Institution	Tuition for Two Years
Bellevue College (Associate Degree)	\$8,958 & fees*
Public Four-Year University (~90 credits)	\$23,678 & fees**

Please check www.bellevuecollege.edu/tuition/ for Non-Resident, International and Bachelor's degree rates.

*Rate based on resident tuition and mandatory fees effective at time of publishing. Figure does not include summer quarter. Always check the college website for the most current information. **Figure based on the average cost for Washington residents to attend a Washington state college for two years.

Lower cost does not mean lower quality.

Research has shown that our transfer students do as well or better than students who start directly at a four-year university.

"My parents saved more than \$100,000 by sending me and my siblings to Bellevue College for our first two years of college."

How to Become a BC Student

Bellevue College is an open enrollment school so getting started is easy! Your first step is applying for admissions.

We do not require SAT, ACT, high school transcripts or a minimum GPA.

We accept all students who meet requirements in one of the following categories*:

- Any applicant who has graduated from high school, or is 16 or 17 years old with a proof of a GED completion, or is 18 years of age or older.
- Currently enrolled high school students who successfully assess into college-level English. However, these students are admitted quarter-by-quarter and are not considered “continuing students” unless they have been admitted through the Running Start program.

- If you are still in high school, you may be eligible for one of BC’s High School Programs such as Running Start.

Interdisciplinary Studies**ARTS & HUMANITIES DIVISION**

Interdisciplinary Studies combines the study of several subjects into one integrated course or "learning community," usually for ten or more credits. Each IDS course features a theme that forms a common thread across disciplines. The focus of these courses is you. Students learn with each other and from each other by discussing readings in small groups (seminars), taking part in group activities, and, in some courses, by taking field trips. These programs emphasize the process of learning as well as course content. The student centered, discussion-oriented format encourages and supports different points of view and creates a social climate that promotes collaborative learning.

BITE ME: CONSUMPTION & SUSTAINABILITY IN THE US - 10 OR 11 CR

Drive-thru or dining room table? Factory-processed or home-grown? Broccoli, barley, beans or edible food-like substances? What's cheap about cheap food? Is all food equal? What is real? Do you eat for nutrients, taste or cost? The focus of this course is the impacts of lifestyle choices in regard to food. We will examine our behaviors, choices, and responsibilities and consequences of our actions to our communities, nation and the entire globe by investigating ecosystem interconnections. Through our readings and discussions, we will evaluate diverse opinions and values in order to scrutinize our own personal beliefs.
