OVERVIEW

**INTERNATIONAL STUDENT CONTRACT FOR INTERNATIONAL STUDENT
PROGRAMS FY2009-10**

Last year, the State Board for Community and Technical Colleges (SBCTC) provided colleges the option of counting international students as part of the college's state-funded enrollment target or engaging in a contractual relationship with a community entity to offer the program. The college selected the second option, offering the program through a contractual arrangement with the Bellevue College Foundation, since the college is oversubscribed in meeting its state enrollment target. In addition, the SBCTC requires that the college's board reaffirm annually that it is continuing this contractual arrangement because it is unable to accommodate international student programs within the current state funded enrollment target.

This action continues the existing contractual relationship with the Bellevue College Foundation because the college continues to be overenrolled and cannot support this program within its current enrollment allocation.

Recommendation: That the Board of Trustees of Community College District VIII hereby adopts resolution 289 reaffirming the contractual relationship with the Bellevue College Foundation for International Student Programs for FY2009-10.

OVERVIEW

Identity Theft Prevention Procedures

The Federal Trade Commission (FTC), the federal bank regulatory agencies, and the National Credit Union Administration (NCUA) have issued regulations (the Red Flags Rules) requiring financial institutions and creditors to develop and implement written identity theft prevention programs, as part of the Fair and Accurate Credit Transactions (FACT) Act of 2003. The programs must be in place by November 1, 2008, and must provide for the identification, detection, and response to patterns, practices, or specific activities – known as “red flags” – that could indicate identity theft.

The Red Flags Rules apply to “financial institutions” and “creditors” with “covered accounts.” A covered account is an account used mostly for personal, family, or household purposes, and that involves multiple payments or transactions. As a non-profit or government entity who defers payment for goods or services, Bellevue College is considered a “creditor.” The Bellevue College Tuition Payment Plan is considered a “covered account.”

Under the Red Flags Rules, financial institutions and creditors must develop a written program that identifies and detects the relevant warning signs – or “red flags” – of identity theft. These may include unusual account activity, fraud alerts on a consumer report, or attempted use of suspicious account application documents. The program must also describe appropriate responses that would prevent and mitigate the crime and detail a plan to update the program. The program must be managed by the Board of Directors or senior employees of the financial institution or creditor, include appropriate staff training, and provide for oversight of any service providers.

To comply with the Red Flags Rules, an Identity Theft Prevention Procedure (copy attached) has been developed for Bellevue College.

Recommendation: That the Trustees of Community College District VIII hereby adopts Bellevue College policy 7360, Identity Theft Prevention, effective June 17, 2009.

Prepared by Rachel Solemsaas
Vice President of Administrative Services
June 4, 2009

7360 IDENTITY THEFT PREVENTION

Original Date: 6/17/09 * Last Revision Effective:
Policy Contact: Vice President, Administrative Services

POLICY

In order to comply with the Federal Trade Commission's "Red Flags Rule", sections 114 and 315 of the Fair and Accurate Credit Transactions Act, Bellevue College shall implement an identity theft prevention program for new and existing credit accounts ("covered accounts") protected under the act that contain sensitive "identifying information." The college will develop and monitor appropriate procedures that provide for the identification, detection and response to patterns, practices, or specific activities - known as "red flags" - that could indicate identity theft.

DEFINITIONS

A "covered account" is defined under the Rule as:

- a. Any account the College offers or maintains primarily for personal, family or household purposes, that involves multiple payments or transactions; and
- b. Any other account the College offers or maintains for which there is a reasonably foreseeable risk to customers or to the safety and soundness of the College from identity theft.

"Identifying information" is defined under the Rule as "any name or number that may be used, alone or in conjunction with any other information, to identify a specific person," including: name, address, telephone number, social security number, date of birth, government-issued driver's license or identification number, alien registration number, government passport number, employer or taxpayer identification number, unique electronic identification number, computer's Internet Protocol address, or routing code.

OVERVIEW

2009-10 College Budget

The Bellevue College Operating, Enterprise and Ancillary, Associated Student Government, and Financial Aid Budgets for fiscal year 2009-10 and Capital Budgets for 2009-11 are presented to the Board of Trustees for approval. Budgets are presented in summary by type, by funding source. Additional supporting documentations are included to provide a comparison to the current 2009-10 budgets, providing an analysis of the revenue and expenditure changes in the proposed Operating Budget.

The proposal before the Board of Trustees also includes all budgeted funds for next year. Major changes to each budget – in revenues and expenditures—are identified and explained in the text below and shown in the two attachments.

HIGHLIGHTS OF THE STATE YEAR TWO - BIENNIAL BUDGET

- Legislative mandated a reduction of \$2,436,675 in state funded allocation.
- Legislative authorized a tuition increase of 7%.
- In response to the focus on improving student retention and degree attainment SBCTC has reduced the state allocation for the College by \$62,565 that will be distributed based on Student Achievement momentum points earned.

BUDGET PROCESS

- The Budget for 2009-10 was developed using budget assumptions that were developed and reviewed with the Planning Council, President's staff and then distributed to the campus.
- Requests for changes and decreases to the state funded budget were solicited through the respective vice presidents.
- President's Staff reviewed these requests initially, and they forwarded their recommendations to Planning Council. The President's Staff then developed an initial balanced budget.
- Planning Council and President's Staff shared the initial balanced budget with the campus and conducted hearings on the budget.
- A revised budget proposal was adopted by President's staff on May 19, 2009.

As noted, this plan results in a balanced budget with all increases identified. One time temporary increases are also identified and prioritized as part of the process.

OPERATING BUDGET

The 2009-10 Operating Budget is presented to the Board of Trustees for approval to expend funds during the 2009-10 fiscal year. It contains changes to revenues and expenditures that are described below and shown in Attachments 1 and 2.

Revenue Changes

The operating budget contains revenue changes that total \$3,845,556 from the following funding sources: state operating allocation, local operating funds, local dedicated funds, and grants and contracts. Changes in all of these accounts are identified as well as the changes necessary to arrive at a balanced expenditure plan.

1. State Operating Allocation (Fund 101): State revenue of **\$31,353,793** consists of state general fund resources from the Washington State Legislature allocated to the college through the State Board for Community and Technical Colleges.
 - a. \$32,290,554 Starting base allocation.
 - b. \$1,179,454 Health insurance increase, pension rate decrease, and workers compensation rate change.
 - c. \$31,661 COLA adjustment for FY 08.
 - d. \$288,799 Net increase in non-salaried items.
 - i. \$202,700 Facilities maintenance and operations funding for new S building.
 - ii. \$121,000 Cover lease increase for North Campus.
 - iii. \$2,451 Childcare matching grant, replace temporary grant funding with permanent funding.
 - iv. \$35,789 Increase in Disability Accommodations.
 - v. <\$10,576> Decrease SBCTC revolving funds reserve.
 - vi. <\$62,565> Decrease student achievement initiative to be distributed based on achievement points.
 - e. \$<2,436,675> Reduction FY 2010.
2. Local Operating (Fund 149): The budget plan reflects local spending authority request of **\$18,379,342** which includes;
 - a. \$16,659,678 Estimated tuition, which includes a 7% tuition increase.
 - b. \$50,000 Operating interesting income.
 - c. \$1,539,533 Carry forward fund-balance from 08-09 for one time only expenses.

- d. \$130,131 SBCTC ESL adult basic education grants.
3. Local Dedicated (Fund 148): The **\$13,098,003** represents the most current revenue estimates for self-support activities, including continuing education, international programs, excess enrollment and various lab and special fee accounts. The increases of \$3,156,905 primarily consist of budgeted excess tuition revenue to support instruction and operating cost for increased enrollments.
 4. Grants and Contracts (Fund 145): The **\$13,251,568** budget reflects estimates for state-restricted grants, federal awards, and other contractual activities, which is \$841,043 over 2008-09 initial budgeted levels. The grants and contracts budgets are primarily based on estimates and will change as 2008-09 awards and carryover balances are received. These changes will be reported to the Board in the quarterly financial reports.

Expenditure Changes

The current balanced budget plan for the 2009-10 operating budget contains \$76,082,706 in expenditures. Initial changes were presented to the Board of Trustees in May and subsequently revised to reflect feedback from budget hearings, and further information from the State Board. The budget contains:

- An institutional contingency of 3%
- New on-going obligations of \$ 412,250
- One-time only obligations and program enhancements of \$1,539,533
- Net program reductions of \$1,222,721 to meet the decrease in state funding

ENTERPRISE AND ANCILLARY FUNDS

The 2009-10 Enterprise and Ancillary Fund budgets are being presented to the Board of Trustees for approval to expend these funds during the 2009-10 fiscal year. These are all self-support activities accounted for in different funds.

1. Stores (Fund 440): The Stores fund is an internal service fund from which departments buy office supplies and are recharged for these cost. No change in activity is anticipated for 2009-10.
2. Computer Services (Fund 443): Computer Services fund is an internal service fund where the college accounts for funds recharged from the general fund and distance education for specific computer related expenses. These commitments are anticipated to decrease by \$57,417 for 2009-10.

3. Printing Services (Fund 448): Printing Services projected revenues are estimated to decrease by \$45,743 over last year's initial budget plan, which reflect efforts to "going green" savings.
4. Motor Pool (Fund 460): No change in accounting activity is anticipated for the use of the college motor pool vehicles.
5. Bookstore (Fund 524): Net Sales are expected to increase by \$48,630 and with continuing savings in expenditures anticipates an increase in its net income by \$303,677 over 2008-09.
6. Parking (Fund 528): The parking fund budget is comprised of the student parking garage fees, commuter reduction cost for staff and students, general student parking fees, and parking fines. The net parking revenues are anticipated to increase \$99,571 due to an increase in parking fee collections from enrollment growth.
7. Food Service (Fund 569): Net Sales are expected to increase by \$5,087; however due to increases in the cost of food, paper products, salary and benefits food service is planning to break even.
8. Misc. Auxiliary Enterprises (Fund 570): This category is comprised of a variety of other budgeted self-funded enterprise activities. The proposed increase of \$83,193 reflects increases from enrollment growth.

Lockwood Distinguished Faculty Award

The Lockwood Distinguished Faculty Award is a designation created and conferred by the Bellevue College Board of Trustees to recognize and reward the teaching and learning excellence of Bellevue College's most accomplished faculty and to provide the college-wide acknowledgement this level of achievement merits.

The Distinguished Faculty Award may be conferred upon faculty members in any of the disciplines or fields of study at the college.

The first Distinguished Faculty designation will be conferred at the June 17, 2009, meeting of the Board of Trustees and celebrated at commencement. The individual so recognized will be rewarded with a stipend of \$10,000 and presented with the Distinguished Faculty medallion, specifically commissioned to commemorate this distinction.

In this inaugural year of the award, three nominations were received: Pauline Christiansen, Marcia Williams and Ron Radvilas. Each nominee was an extraordinarily strong candidate and the recommendations received attested to the nominees' deep commitment and enormous contributions to their students, colleagues and the college.

The committee reviewing these nominations is composed of the Bellevue College Foundation Scholarship Chair, the Foundation Executive Director, the Executive Dean, one member of the Board of Trustees, one OUA chosen by the Executive Dean, a faculty member from each academic division (Arts and Humanities, Social Science, Business, Science, Health and Wellness), and one additional faculty member from Counseling or the Library, appointed by the Faculty Association.

This committee has forwarded its recommendation to the College President, who will transmit her recommendation to the Chair of the Board of Trustees.

Recommendation: That the Board of Trustees of Community College District VIII approves the recommendation of the College President and hereby adopts resolution 291, awarding the inaugural Lockwood Distinguished Faculty Award to _____

OVERVIEW

Policy 6520 Animals on Campus

The College developed a policy concerning animals on campus in 1992. The current policy requires revision in order to provide definition and direction regarding the role and place of service animals at the College in promoting the safety, dignity, and independence of persons with disabilities.

Therefore, college staff has revised Policy 6520 Animals on Campus to more fully define what is meant by the term 'service animal', to provide definition of and increase awareness of the value of various types of service animals and the support they provide to persons with disabilities, to clarify responsibilities of persons with disabilities and the college, and to provide for mechanisms to deal with disruptive animals.

The revised policy was drafted by Susan Gjolmesli, Disability Services Director, and has been reviewed by the All College Council and President's Staff. The policy is being presented to the Board of Trustees for consideration for future action at the September meeting.

6520 ANIMALS ON CAMPUS

Original Date: 5/8/1992 * Last Revision Effective: 5/21/2009
Policy Contact: Vice President, Administrative Services

POLICY

Pets on the grounds of Bellevue College shall be in the physical control of their owner in accordance with the city of Bellevue "leash law" ordinance, chapter 8.04.

Animals, except for service animals, are prohibited from entering buildings operated by Bellevue College.

Service Animals

As established by the American with Disabilities Act (ADA), service animals shall not be excluded from college facilities or activities. The ADA defines a service animal as: "...any animal individually trained to do work or perform tasks for the benefit of an individual with a disability, including, but not limited to, guiding individuals with impaired vision, alerting individuals who are hearing impaired to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair, or fetching dropped items."

To work on campus, a service animal must be specifically trained to do work or perform tasks for the benefit of an individual with a disability, including, but not limited to, guiding individuals with impaired vision, alerting individual who are hearing impaired to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair, or fetching dropped items. If an animal meets this definition, it is considered a service animal for the purposes of this policy.

Service animals whose behavior poses a direct threat to the health or safety of others or is disruptive to the campus community may be excluded regardless of training or certification.

OVERVIEW

FINANCIAL AID

The State Board for Community and Technical Colleges (SBCTC) approved new tuition rates at their May 6, 2009 meeting. These increases were adopted by the BC Board of Trustees at its May 20 meeting and are reflected in the Bellevue College 2009-10 budget being presented for approval today.

The new rates include a seven percent tuition increase for lower division resident students. Lower division nonresident rates are raised by the same dollar amounts as resident student rates. Upper division applied baccalaureate tuition rates were increased by 14 percent for both resident and non-resident students.

A seven percent tuition increase will cost a full time resident student an additional \$191 a year. A fourteen percent tuition increase would cost a full time resident upper division student an additional \$653 a year.

The Board of Trustees and college staff are very concerned about the impact of increased tuition rates and the Board has requested additional information concerning the availability of financial aid for BC students.

Increased financial aid from state and federal sources could offset some of the impact on the students. The federal government has increased the maximum Pell grant by \$619 per year next year, from the current \$4,731 to \$5,350 in 2009-10 and to \$5500 for 2010-11. In addition, a new federal tax credit will help reduce educational costs for low income students who do not receive Pell grants.

The 2009-11 operating budget bill adopted by the Legislature increases the State Need Grant to keep pace with tuition increases, and retains eligibility for students/families whose incomes are at or below 70% of median family income (\$52,500 for a family of four).

Rachel Solemsaas and Sherri Ballantyne will brief the board on the College's financial aid and waiver activities and how well they address BC student need. .
