Parent/Guardian Consent

I give permission for my student to enroll for summer quarter classes. I understand Bellevue College does not make allowances to students because of their age and does not provide any special monitoring or guardianship for underage students. I also understand that the college expects my student to follow the same college standards and rules expected of all students.

Additionally, I understand that if my student is taking classes to complete high school graduation requirements, my student and I are responsible to make sure the high school accepts the class/es taken at the college. I also acknowledge my student must pay the full cost of tuition and fees for summer quarter, as summer enrollment does not include Running Start or Career Education Options (CEO) programs. **Note: For summer 2022 the Running Start program does include limited options for enrollment. Contact the Running Start Office for information.**
