

Possible Volunteer Opportunities

Organization: Community Alliance for Global Justice

Volunteer Opportunity Description: 7th Annual Strengthening Local Economies Everywhere Dinner! This year's SLEE dinner celebrates food service workers and their accelerating struggle for better conditions. Fair food means fair conditions up and down the food chain, including the people who serve us at the table. Join us and our friends at Restaurant Opportunities Center United, Working Washington, and Unite Here, among others, to celebrate the recent struggles of food service workers.

Benefits: Volunteers will get a sense of the organization because they will be able to listen to our program and keynote speaker, Saru Jayaraman. They will also get a free meal, cooked by a gourmet chef, and will be able to network with other people working with non-profits in the area.
