

Design Concept

My project is a Coffee Shop in Bellevue College. I would like to give people the feeling they had before the pandemic and a new, fresh, and energetic feeling they will have after the pandemic.

Connection & Continuity

Sustainability Strategies

- Use solar panels as part of energy for electricity
- Use sunlight to save energy

Disability Justice

Lower seatings, cashier countertop, and pick up counter are carefully designed for disabilities. Sufficient chairs and wide space will give a safe environment for disabilities and others

Color Palette

The color palette that I have chosen, reminiscent of the seasons, reflecting my design concept by natural colors, bringing gentle and comfortable to the whole space.

Color Harmony
 Complementary colors.

#97ABAA	#92C1AD	#FEA212	#5E775B
Grey green: cool, clean, sober.	Light green: vital, fresh, new.	Orange yellow: dynamic, vibrant.	Dark green: deep, stable, staid.
