Maximum number of participants: 40
Location: Bellevue College Main Campus – Library Media Center
Meals: Breakfast and lunch will be provided. Breakfast will begin at 8am. The first presentation will begin at 8:30am.
Stipend: $200 for attending both days.

Register here

We will have four concurrent sessions. Facilitators will demonstrate a concept and share effective examples of activities in Canvas. Each session will have a hands-on component where you will get time to update your current Canvas course.

New Gradebook

The "New Gradebook" makes grading more flexible and intuitive and elevates the Gradebook user experience. However, once this feature option is enabled within a course and an instructor applies the New Gradebook functionality (such as Late Policies), the feature option cannot be disabled in the course.
This feature is OPTIONAL and is available at the Course level under the **Settings,** listed on the **Feature Options** Tab. If you would like to use the New Gradebook, you need to turn the setting **ON.**

- View all the features in the New Gradebook Guide
- New Gradebook: FAQ

Quizzes.Next

- **Quizzes.Next** will be available after June 30. As more information becomes available, it will be shared. However, in the Bellevue College Canvas instance it will not be turned on immediately following the release. This will be dependent on available feature set.
- Training sessions will be offered when the new **Quizzes.Next** quiz tool is deployed.
- In a course when **Quizzes.Next** becomes available, it will coexist with the current quiz tool. Instructors can choose which quiz tool they wish to use during this time. This will also allow instructors time to migrate quizzes from the current quiz to **Quizzes.Next**. The content migration tool will be available from the current quiz tool index page.
