Requester: Aron Segal	Date Submitted: 11/14/18
Amount Requested: \$5,255.65	Fiscal Year: 18-19
Request for: Business and Economics Study Center	
Program(s) benefiting from this request? Business Transfer, Economics, Accounting	
Timeline for Expenditure(s): Spring 2019	
Number of Students Served Each Year by Program: Approximately 5,000	

Describe the activities and expected accomplishments and why the Student Technology Fee should fund this request:

The Business and Economics Study Center offers drop-in tutoring and a space to study for accounting, business, and economics students. Approximately 1,500 students a quarter make use of the facility, which is available to all students. Currently there are three computers in the space, none of which are fully supported by the college's IT division due to age. They are old Lenovo machines, running Windows 7, and need to be replaced with current equipment to facilitate student use. Students currently avoid using the equipment due to the lack of speed and capacity.

In addition, as most of the courses require student presentations, a projection system is requested in order to give students a space to prepare and practice their presentations. Currently there are no spaces available for student teams to practice their work. This system would enable student teams to collaborate, edit, and practice, while also accessing tutor assistance.

The request covers the cost of three computers with monitors (\$1,100 each), a short-throw projector (\$1,610.42), and a whiteboard for use with the projector (\$345.23).

What other ways have you tried funding this request:

Funds were requested from the Social Science Division in the Spring of 2018, but the Division was unable to fulfill the request.

Describe the anticipated impact on students from these activities:

Students will use this equipment to work on team and individual assignments, including papers and presentations. The space will be unique on campus; one place in which students may access tutoring assistance and collaboratively work on presentations.

Requester: Send request to your Division Chair or Supervisor for initial approval.
Supervisor: Virginia R. Bridwell 11/20/18
