**WORKER RETRAINING STUDENTS ONLY:** For some students who already have a degree relevant to their desired training, a Bachelor of Applied Science degree or upper level certificate may be an appropriate program. BAS/BAA degrees do require acceptance into the degree program and transcripts are generally needed. Worker Retraining may be able to assist with these degrees if students have met the prerequisites and are accepted. It is important to note that Worker Retraining cannot cover the full cost of 300/400 level classes. We can only pay the amount equivalent to the cost of the 100/200 level classes. If you are enrolling in these programs, you would be responsible for the remainder of the tuition, unless you had Financial Aid or other grants. Please talk with your Worker Retraining advisor for more information about specific programs. Potential programs are available in Interior Design; Accounting; Marketing; Data Analytic; Information Technology; Healthcare and more. To see the full list, please check the Worker Retraining Approved programs at <https://www.bellevuecollege.edu/we/wrp/approved-programs/>
