Course Information

Course Description

The course is designed to make students aware that the objective of Criminology is the development of a body of general and verified principles and of other types of knowledge regarding the process of law, crime, and treatment or prevention. These bodies of knowledge are constructed from study and analysis conducted in accordance with the scientific principles of research methodology. To accomplish these broad objectives, the course will be divided into three parts. Each part is necessary in order to adequately study crime and the theories that explain it.

1. The first part of the course will be dedicated to understanding what criminology is and how it came to be something that we study.
2. Second, we will examine all of the major theories in criminology. These theories explain crime as a social phenomena and individual criminal behavior in many different ways. Some theories explain criminal behavior as a deficiency in the individual, while others explain that crime occurs because of inadequacies within society.
3. The course will end with a more applied approach to study of crime. We will discuss different types of crime, and how these types can be explained using our theories from the previous section.
4. We will study various serial killers through video, discussion, and other sources. By looking at the criminological theories and applying if these theories give us any insight into serial killers lives/minds/background.

At the end of the course, you should have a good understanding of crime and criminology. This knowledge will enable you to view the relevant issues surrounding the question of criminal behavior from more than one perspective.

Attendance: All students are expected to attend the online classroom 4 times a week for an average of 1-2 hours at a time. Obviously, if students do not attend the online classroom regularly, the opportunity to perform well in this course is greatly diminished.

Course Requirements: All students are expected to read the required chapters of the textbook as outlined online and in the schedule section of this syllabus. Students are also expected to read the required chapters to attend the online classroom regularly, finish online requirements, take notes, ask questions, and participate in online discussions.

Make-up Policy: *Any* make-up assignments or quizzes are **allowed only at the discretion of the instructor** and immediate notification from the student is imperative. **Excused absences: death of immediate family member (death notification needed), medical emergency (ER discharge papers required).**

You are responsible for any issues with Canvas (meaning don't wait until the last few minutes before an assignment is due) since you WILL NOT be able to make-up any assignment or quiz or paper due to technical issues. Give yourself time to complete the work and contact Canvas help (upper right corner of screen) well before deadlines to make sure any issues are resolved BEFORE the deadline. Please contact me via e-mail BEFORE the due date of any assignment you have technical issues with and we can work on a solution; AFTER the deadline I cannot accept any work.

Any excused absence (with documentation) will be allowed to take the make-up the assignment and/or quiz without point penalty. Any un-excused or undocumented missing assignment and/or quiz will NOT be

allowed to make-up. Since this is an online course you have plenty of time to work on the coursework around any emergencies, work obligations, family obligations, vacations, etc.

Discussion Threads: Participation in the discussion forums maximizes your learning experiences and that of your classmates. You are required to participate in discussion threads online and in classroom activities and discussions. As part of an online and in class group you will have the opportunity to interact with others for deeper understanding of the materials offered. Most importantly, you have the opportunity to understand differing points of view and how they are arrived at by your classmates.

You may not agree with those points of view, and others may not agree with yours. There is no right or wrong answers in discussion forums. The focus of the discussion thread and classroom activities is to use resources from your book and on the internet to support your conclusions and more effectively understand the other person's point of view. Please be grammatically accurate and brief (1 or 2 paragraphs) in your responses.
