COURSE DESCRIPTION

PSYC& 220 is an introductory course on maladaptive behavior and the etiology (causes), description, and treatment of psychological disorders. The course will cover theoretical approaches to abnormal psychology, classification and assessment of major disorders, and therapeutic responses to disorders.

Learning Outcomes (at the end of this course students will be able to):

After completion of this course, students will be able to:

1. Articulate the criteria and controversy regarding the definition of abnormal behavior.
2. Demonstrate knowledge of the prevalence and historical/ contemporary views of abnormal behavior.
3. Describe current practices of diagnosis, assessment, and research (including DSM) in classifying disorders and determining the need for treatment.
4. Describe the major techniques and theoretical approaches to understanding and treating abnormal behavior.
5. Identify the major diagnostic categories and distinguish among the symptoms, proposed causes, and preferred treatments of each of the disorders.

COURSE REQUIREMENTS

Format: Students are required to read chapters in the assigned text, participate in a weekly discussion forum, submit assignments, and take exams, all on-line.

Readings: You are expected to read the assigned literature and review the weekly objectives/ study guide.

Discussion: Topics/ Questions are presented at the beginning of each week. Discussions are intended to increase your experience as a learning community and should deepen your understanding/thinking about the subject matter. Weekly discussions will count 50 points. Total points possible for discussions are 350 points (7x50=350). Specific details on how to write discussion responses are available under 'Instructions for Discussions' in the 'Getting Started' Folder.

Assignments: The purpose of assignments is to give you an opportunity to apply knowledge. Detailed instructions will be provided for each activity in the corresponding modules. You need to complete and submit one case study assignment during the quarter (170 points). In addition you need to submit an Introduction and Technical Plan the first week of class (30points). All assignments are due at the indicated dead-line and late papers will lose points (one day late: half a letter grade; two days late: one letter grade).

Quizzes: After completing a module you have to take a short quiz of 50 multiple choice questions (available Monday 8 a.m to midnight). Each quiz will cover information pertaining to the module only. Total points possible for quizzes is 300 points (50 x 6weeks= 300 points).

Quiz Rebuttal Policy: You may rebut, *in writing*, any question on any of the quizzes. Your rebuttals must include:

1. The complete question.
2. The option you chose.
3. Why you chose an incorrect option.
4. One reference from your textbook to support your argument.

Rebuttals are due within one week of the quiz.

Class Evaluation: Class evaluations are an important part of the class and you need to complete the evaluation by the end of week 6. Class evaluations will give you 30 extra credit points.

Make-up policy: You can make-up one weekly quiz. Make-ups need to be scheduled with the instructor and will be given during the last week of class (Week 7).
