Course Description

Welcome to the Psychology 100 online class! The field of psychology is defined as a "scientific study of behavior and mental processes", and you will learn that psychologists study a remarkably wide range of topics. Such a diversity of topics makes it more likely that everyone will find something in this class that particularly interests them. Examples of topics we will cover include learning and memory, sleep, motivation, emotion, psychological disorders and personality. We will also talk a lot about the brain, and about how psychologists conduct research. The main purpose of the course is to introduce you to the major concepts, theories and research findings in psychology. More specific goals for the course are listed below.

Please read this entire syllabus as it contains a lot of important information regarding the class! If you have any questions or concerns, please contact me as soon as possible.

Course Purpose & Goals

COURSE OUTCOMES

- 1. Describe the purpose, comprehensive scope, and areas of application in the discipline of psychology.
- 2. Demonstrate knowledge of the scientific process by applying and/or critiquing various research methods used by psychologists in the study of behavior.
- 3. Recognize, compare and contrast various theoretical perspectives used to explain and guide psychological research and application.
- 4. Identify historical and present-day contributions of major psychologists.

- 5. Define important psychological terms, concepts, processes and principles.
- 6. Apply critical thinking to assumptions, claims, and common sense ideas about behavior.
- 7. Demonstrate the application of psychological principles and findings to one's own life.

STUDENT LEARNING OUTCOMES

In terms of general education outcomes, students will be able to:

Use cognitive and creative skills:

- a) Analyzing (identifying and evaluating problems)
- b) Synthesizing (interpreting situations, drawing conclusions, and making connections)

Improve communication skills:

- a) Doing research (gathering and documenting information)
- b) Delivering one or more written, oral and/or visual presentation with formal documentation Apply personal skills:
 - a) Understanding the influence of stress, nutrition, and life style on personal health and performance

Exams & Activities (490 points total)

- 1) <u>10 Quizzes (200 points)</u>: There will be 10 quizzes that you will take online. 9 of them are each worth 20 points, and a longer final quiz is worth 40 points. Of the 9 20-point quizzes, your lowest score will be automatically dropped, so that only 8 of the quizzes (160 points) count towards your final grade. The last 40-point quiz cannot be dropped. The quizzes cover the readings and films for each unit. None of the quizzes is comprehensive; each quiz only covers the material for the given unit. Most quizzes will be available from Friday morning to Sunday at midnight (11:59pm) and must be taken during this time. The last 40-point quiz will be available from Monday December 9th morning to Wednesday Dec 11th midnight. The quizzes are timed and can only be taken once. No make-up quizzes will be given. Since your lowest score will be dropped, if you miss a quiz, the missed quiz will be accepted as your lowest score. However, please contact me for exceptional circumstances such as illness or death in the family. Documentation such as a doctor's note or a death certificate is required.
- 2) Paper assignment (60 points): Each student picks one topic from any field of psychology, finds at least 3 sources, at least two of which must be scientific journal articles, and writes a paper that summarizes and discusses the findings related to the topic. Example topics might include "Unilateral neglect", "Retrograde and Anterograde Amnesia", "Eyewitness Testimony", "Narcolepsy", "Learning during sleep", "Adolescent brain", "The Bystander effect", "Dissociative Identity Disorder". More information about this assignment will be provided later. Late assignments without a documented and pre-approved reason may lead to a 50% reduction in points or may not be accepted for grading.
- 3) <u>Discussions (220 points)</u>: You need to post at least 4 TIMES A WEEK in discussions related to the assigned chapters, films and articles. For each discussion, you have to post 2 times in response to my questions, and 2 times in response to other students' posts. In most weeks, the responses to my questions must be posted by EACH THURSDAY BY MIDNIGHT, and the responses to other students' posts must be posted by EACH SATURDAY BY MIDNIGHT. One exception to this is the first week: please see

the introduction and the calendar for the deadlines for the first discussion. Each posting each week is graded in the scale of 1 or 5 points, so that you can collect up to 20 points per discussion for 11 discussions (total 11 x 20 = 220 points). It is very important that you read the detailed instructions about how to post in the file labeled "Course structure and expectations" in the introductory module of the online site.

4) <u>Personal introduction (10 points)</u>: You will be asked to post a personal introduction by Friday Sept 27tth and respond to another student's introduction by Mon Sept 30th in the introductory module of the online site.

Grading Information

The total number of points you earn will be converted to a percentage of the total points possible. Your final grade will be assigned based on the letter grade scale as shown below:

| % | Letter Grade | | |
|------------|--------------|--|--|
| 95-100% | A | | |
| 91-94 | A- | | |
| 86-90 | B+ | | |
| 80-85 | В | | |
| 75-79 | B- | | |
| 71-74 | C+ | | |
| 66-70 | С | | |
| 60-65 | C- | | |
| 55-59 | D+ | | |
| 50-54 | D | | |
| 49 or less | F | | |

For example, if you earn 300 points out of the total possible 490 points, your points are divided by the total possible points to obtain a percentage of the total points (390/490 = 0.80 = 80%). Once you have the percentage, refer to the table above to figure out the grade (80% = B).

ONLINE PROCEDURES AND GUIDELINES OF THE SOCIAL SCIENCE DIVISION

Bellevue Community College's Affirmation of Inclusion

Bellevue College is committed to maintaining an environment in which every member of the campus community feels welcome to participate in the life of the college, free from harassment and discrimination. We value our different backgrounds at BC, and students, faculty, staff members, and administrators are to treat one another with dignity and respect.

The college's "Affirmation of Inclusion" is in line with the principle of free speech in a free society: we have the right to express unpopular ideas as long as we don't show disrespect for reasonable people who might believe otherwise. In an online course, you will be expressing ideas through the medium of the course site rather than face to face in the classroom. In that case, these expectations refer to the courtesy with which you communicate with one another through e-mails and e-discussions. Part of this respect involves professional behavior towards the instructor, colleagues, and the class itself.

Cheating, Stealing, and Plagiarizing* and Inappropriate Behavior

Cheating, stealing and plagiarizing (using the ideas or words of another as one's own without crediting the source) and inappropriate/ disruptive behavior are violations of the Student Code of Conduct at Bellevue Community College. Examples of unacceptable behavior include, but are not limited to: plagiarizing material from the Internet and posting rude or personal attacks in discussions. When you are in doubt about any behavior, please consult your instructor. In addition, you may wish to review the general applicable rules of cyberspace, such as in the <u>Core Rules of Netiquette</u>. The instructor reserves the right to remove posted messages, and downgrade assessments as a result of these types of behaviors. The instructor can refer any violation of the Student Code of Conduct to the Vice President of Student Services for possible probation or suspension from Bellevue Community College. Specific student rights, responsibilities and appeal procedures are listed in the Student Code of Conduct, available in the office of the Vice President of Student Services, <u>link to Student Code</u>.

Incomplete

If a student fails to complete all the required work for a course, an instructor may assign the grade of Incomplete (I). It is the student's responsibility for maintaining contact and adhering to the agreed-upon actions. Vista class sites, and material, may not be directly accessible after the end of the quarter so it important to make arrangements before the quarter ends. The student must complete the coursework by the end of the next quarter, or receive the assigned letter grade (usually an F). There is a standard form that instructors have access to in their instructor's grade briefcase.

F Grade

Students who fail a course will receive a letter grade of "F."

Final Examination Schedule

Final examinations may involve proctored on-campus arranged exams or may be administrated completely online at the discretion of the instructor and in keeping with the stated policies provided in the course syllabus. Please refer to the syllabus at the start of the quarter for additional details and contact the instructor directly for any clarifications. A student who is not in compliance with the scheduled format may forfeit the right to make up the examination. If, for illness or some other circumstance beyond the student's control, the student is unable to be in compliance with any scheduled examination and has contacted the instructor on a timely basis, the student may be permitted to take such examination at a time designated by the instructor.

Withdrawal From Class

College policy states that students must formally withdraw from a class by the end of the seventh week of the quarter during the standard academic year (Registration Office, B125). If a student has not withdrawn by that date, an appropriate letter grade will be assigned for the course. Check <u>Enrollment Calendar Deadlines</u>, <u>Refunds/Withdrawals</u>, for additional details. As with most enrollment deadlines, it is the student's responsibility to be aware of these dates and act accordingly.

Hardship Withdrawal (HW)

From page 9 of the current course catalog, <u>2008-2009 online catalog</u>, HW indicates a withdrawal request made because of extenuating

Psychology 100, Fall 2013, Instructor: Ilona Pitkänen

circumstances after the official withdrawal period is over. The student must contact the instructor to request this withdrawal option, or the faculty member may initiate the contact. No points are calculated into the grade-point average. Students may also contact the Enrollment Services office BEFORE grades are assigned in cases of hardship.

Students Who Require Disability Accommodations:

Students with disabilities who have accommodation needs are encouraged to contact the Disability Resource Centre (DRC). The office is located in B132 (telephone 425.564.2498 or TTY 425.564.4110, email drc@bellevuecollege.edu). Students will need to establish their eligibility for accommodation. The DRC office will provide each eligible student with an accommodation letter or contact your online instructor directly by email. Students who require accommodation in a course should review the DRC accommodation letter with each instructor during the first week of the quarter.

Distribution of Grades

Students should access their grades through the BC Web site. Any returned material should be accessed prior to the end of the quarter. After the end of the quarter, Vista class sites may not be accessible by students. Individual instructors may use non-Vista tools for recording and maintaining the students' progress. Questions about grades assigned should be initially directed to your instructor.

Submission and Returning of Papers, Assignments and Assessments:

Specific guidelines for taking exams and submitting assignments are published in the syllabus. Please contact instructor at the start of the quarter for any clarifications.

Technical Assistance

Vista-related or technical issues should be referred to Distance Education, <u>link to Distance Education web resources</u>. You may also email them at landerso@bellevuecollege.edu or call 425-564-2438 (1-877-641-2712). Vista tutorial help and basic instructions can be found at <u>http://bellevuecollege.edu/distance/studentguide/</u>

*If you are accused of cheating, stealing exams and/or plagiarism, there is a Bellevue Community College Student Discipline and Appeals Procedure (the right to due process) which you may pursue. Contact the office of Division Chair (D110), the Vice President of Student Services (B231A) or the Associated Student Body (C212) for information regarding the appeals process.
