PREQUISITE: Accounting 201
COURSE TEXTBOOK: Financial Accounting (7th Edition) by Weygandt, Kimmel, and Kieso
COURSE DESCRIPTION AND OBJECTIVES: This class continues the study of financial accounting. It is assumed that students have a base of understanding developed in Accounting 201, including an understanding of the accounting cycle. It is a required course in the business administration transfer program, useful to those who desire to major in accounting and those who do not.
CHAPTER ASSIGNMENTS, ATTENDANCE, PARTICIPATION: Chapter assignments, attendance, and participation are worth 1/7th of the course grade. Students are expected to complete these assignments prior to class. Small groups will be formed to present the solutions in class. Each group is expected to work on the question before the class section. Reviewing the questions is probably the best way to prepare for chapter tests.
TESTS: Seven tests are scheduled including the final exam. Test dates are scheduled well ahead of time. If you know you are going to be absent on a test day, see me to make arrangements to take the test early. The instructor reserves the right to impose a penalty if a student takes a test late without prior permission or if a student is caught being dishonest on a test. Cell phones or other mobile devices are not allowed to be used on a test. Only a calculator can be used.
GRADES: A total of 700 points is available. The five best test scores plus the final exam are worth a total of 600 points and 100 points are available for homework, attendance, participation, and effort. The grading scale is as follows:

1.	A	644-700
2.	A-	630-643
3.	B+	616-629
4.	B	574-615
5.	B-	560-573
6.	C+	546-559
7.	C	504-545
8.	C-	490-503
9.	D+	476-489
10.	D	434-475

SPECIAL ACCOMODATIONS: Students requiring any special accommodations for the class should make arrangements at the beginning of the quarter through Student Services.
