Course Information

Course Outcomes

- Correctly identify reliable sources and be able to calculate the primary statistics used to evaluate macroeconomic performance: real GDP, unemployment rates, inflation measures, labor productivity, money measures, interest rates, and the federal budget position. Have the ability to read and interpret the reasonableness of these data as presented in charts and tables.
- Understand the key components (consumption, investment, government expenditures and net trade) of GDP for an open, mixed economy and how these relate to the national income and goods through an economy.
- Identify and describe the processes a central bank uses to implement monetary policies.
- Identify and describe the components of fiscal policy as enacted by the federal government.
- Evaluate policies, and their influence on business cycles, long-run growth, productivity and responses to external shocks to the economic system (growth and stability).
- Understand how the internationalization of our economy has changed the outcomes and choices of our domestic economy (exchange rates, purchasing power parity, and trade of goods and flows of money or capital).

How Outcomes will be met

To help us structure the class, please check the calendar on the last page of this syllabi. We will have two sessions a week, here are the plan of the class sessions tentatively:

Lecture with discussion on some examples and problem-solving exercises
Weekly in-class group exercises (teamwork)
Weekly Quiz (20 multiple-choice questions)
Discuss current news/articles or documentary DVD presentation (30-minute)

There will be **two** 50-minute exams during the quarter, about eight quizzes, and ten group exercises.

The 50-minute exams each will consist of 35 multiple-choice questions (for schedules, look up the course calendar, at the end of this syllabus), and each exam will cover only the segment of each period. Please do not miss an exam, quiz or group exercises. If it is an emergency, **you must notify me beforehand, and bring a written document.**

Grading

Each of your work will graded with 100 point-base and then will be taken in percentage as follows:

		A	92-100
Teamwork/Participation	10%	A-	88-91.9
Quizzes (5)	20%	B+	84-87.9
Group Exercises (8)	20%	B	80-83.9
Exam-1	20%	B-	76-79.9
Exam-2	20%	C+	72-75.9
Last Quiz	<u>10%</u>	C	68-71.9
Total	100%	C-	65-67.9
		D+	60-64.5
		D	56-59.5

There will be no “extra-credit” assignments, in consideration that you will have enough assignments to improve your grade (quiz and group exercise) throughout the term. Your grade reflects your understanding of the chapter readings and lectures, and the time and efforts that you put into it. Including in the participation is (not only attendance) but also in solving exercise problems, which you will be asked in turns.
