***Principles of Accounting III (Managerial Accounting)***  
***Course Syllabus (MW 12:30 -2:40 p.m., C208)***  
***Spring 2011***

***COURSE DESCRIPTION:***

Course demonstrates the kind of accounting and financial data that are needed in the management process, where this information can be obtained, and how it is used by managers to carry out three essential functions in an organization: (1) planning operations; (2) controlling activities; and (3) making decisions. (Prerequisite: ACCT& 202 - course is designed for students who have completed two quarters of principles of accounting, receiving "C" or better.)

***COURSE FOCUS:***

Objectives of the course are: (1) to develop a general understanding of the uses and benefits of accounting and financial data within an organization; (2) to provide a framework for applying this knowledge in various business settings; (3) to provide a strong foundation for subsequent courses in accounting, business and finance; and (4) to provide the course work which will lead to a career in the accounting field.
