

ECONOMICS 100 – INTRODUCTION TO BASIC ECONOMIC PRINCIPLES (#5202B, 5CR)

FALL QUARTER 2009 (Daily 8:30-9:20a, R303)

INSTRUCTOR: Chris Hendrixson

CONTACT: Phone: (253) 520 - 2977
Email: chendrix@bellevuecollege.edu
Office: D 200E

OFFICE HOURS: Tue/Thurs from 9:30-10:20a

TEXTS: *Essentials of Economics* Worth Publishers, Krugman and Wells.

COURSE DESCRIPTION: Introduces the concepts and tools of economic thinking. Students learn to understand and evaluate the complex economic problems encountered in modern society. Business and Economic majors who plan to transfer to a 4-year institution should generally take ECON& 201 (prev ECON 201) or ECON& 202 (prev ECON 200) rather than ECON 100.

COURSE OBJECTIVES

By the end of the quarter, students will be able to do the following:

- Interpret and use major economic statistics such as GDP, inflation rate, unemployment rate, growth rates, exchange rates, trade and budget balances, productivity, money supply and interest rates.
- Identify and analyze theories of the causes of business cycles, and of the impact of monetary and fiscal policies upon the economy.
- Define and evaluate the importance of the basic sources of economic growth, and the impact of macroeconomic and microeconomic policies on economic growth.
- Explain why exchange rates fluctuate, why governments choose alternative exchange rate regimes, and what effect exchange rates have on domestic economies.
- Describe the institutions of international trade; analyze the effects of trade policies and the interactions of trade with political and social systems.
- Identify the economic problems of scarcity, and identify and analyze the alternative methods available to societies and policy-makers of allocating scarce resources.
- Use the economic models of markets, including the forces of supply and demand, to predict and analyze market outcomes.
- Describe and analyze the strengths and weaknesses of a market system, and evaluate the policies of government in modifying market outcomes.
- Identify and explain the impact of cultural and historical forces on the economic problems and options faced by particular societies.

Currently we have Gen-Ed outcome ratings, all as ones, in 7 areas

COURSE REQUIREMENTS

CLASS SESSIONS: Class lectures are extremely important as some material is not conveniently available elsewhere. The textbook is to act as an aid, as the organization and depth of focus in the lecture material will differ slightly. In addition, each new class builds on the foundation developed in the previous class. Therefore, consistent attendance is essential to your success in this class. If, for any reason, you miss a class, it is your responsibility to see me to find out how to make up the material you missed.

READING ASSIGNMENTS: The reading assignments for each unit of the course constitute the minimum reading necessary to profit from and build on material presented in class. There will not always be a one-to-one correspondence between how a subject is presented in the book and how it is presented in class, however it would be a serious mistake to avoid timely readings of the given topics. Economics can be very difficult, and multiple approaches to the given subjects are often necessary before they are understood.

EXERCISE SETS: There will be 4 exercise sets assigned worth a maximum of 20 points each. They provide you with essential rehearsal, practice, and feedback. In addition, they provide me with important information about your progress. It is your responsibility to have exercises completed **before you arrive** in class. Any assignments turned in after the due date will have 5 points subtracted from its score.

GROUP ASSIGNMENTS: Over the course of the quarter there will be 4 in-class group assignments given. These assignments will be completed during the class period and unless excused, only those attending and participating that day will receive points. Note: The lowest score from either your Exercise Sets or Group Assignments will be dropped.

TESTS: Over the course of the quarter there will be 4 unit tests and one Final test. These tests will contain a mixture of multiple-choice and essay questions. The unit tests are not cumulative, however, knowledge of earlier material will often be needed to understand later material. The Final test **WILL** be cumulative. Each unit test will be worth 50 points, and the Final will be worth 100 points.

When writing essays, keep the following points in mind:

- 1 Always write as if explaining the answer to someone who knows little about your topic or economic theory. In other words, do not assume the reader will “read between the lines” or fill in the gaps with information or background you fail to supply.
- 2 Write so as to make it impossible for the reader to doubt your understanding. **Avoid assertions. Fully support your basic points by explaining fully and by providing illustrations and examples.** Attempt to develop original examples rather than “playing back” examples from class, from the text, or from other reading assignments.
- 3 When relevant, use the graphical models developed in class to illustrate and support your answer. However, **make sure the text of your answer explains how the model contributes to your answer.** Do not simply fill your paper with unexplained graphs hoping they will make your paper look impressive or competent.
- 4 Make sure your writing is clear, concise, organized, and legibly presented in a form acceptable in college classes.

GRADING

The criteria for grading are based on universal intellectual standards which apply in all college-level courses. These standards include 1) clarity, 2) accuracy, 3) precision, 4) relevance, 5) breadth, 6) depth, and 7) consistency (logic). If your work is essentially **complete and essentially accurate**, and if it exhibits the qualities listed above at least at a minimal level, it will be assigned a grade in the **C** range. This designates work which is basically **acceptable** at the college level. If your work meets these minimal criteria and, in addition, is **occasionally distinguished** with respect to one or more of the above-listed standards, it will receive a grade in the **B** range. If your work is **consistently distinguished**, it will be assigned a grade in the **A** range. You can distinguish your work in many ways: by its clarity, by its accuracy and precision, by its depth and/or breadth of understanding, by its originality, or by other evidence that you have achieved and can communicate a high level of understanding of basic economic theory.

Your final course grade will be determined by the total number of points you earn in relation to the rest of the class. The maximum points possible for each assignment are as follows:

Requirement:	Points Possible:
1 Four Exercise Sets and Four Group Assignments	140 Points (20 points each, lowest dropped)
2 Four Unit Tests	200 Points (50 points each)
3 Final	100 Points

At the end of the quarter, I will add your scores to find your final score total. This total will then be compared to the final score totals of the rest of the class and grades will be set **roughly** to the following curve.

Grade	Percentage
A/A+	10%
A -	10%
B +	10%
B	10%
B -	10%

C +	12%
C	12%
C -	12%
D/F	14%

Note that this curve is only an approximation. If the class either exceeds or fails to achieve my general expectations of what should have been learned the curve will be adjusted accordingly.

READING OUTLINE

- I. General Introduction, Math and Graphing Primer
Ch1 (skim), Ch 2 appendix
- II. Production Possibility Curve and trade
Ch 2: 20-30
- III. Supply and Demand
Ch 3
- IV. Consumer and Producer Surplus
Ch 6: 135-151
- V. Firm Cost Curves
Ch 7: 160-176
- VI. Perfect Competition
Ch 8: 186-203
- VII. Monopoly
Ch 11: 271-291
- VIII. Oligopoly and Monopolistic Competition
Ch 12: 301-303, 313-316
- IX. Role of the Government in Markets
Ch. 10: 250-265
- X. Business Cycles, Unemployment, and Inflation
Ch 14
- XI. GDP, Price indices and the Circular Flow Diagram
Ch 15
- XII. Aggregate Demand and Aggregate Supply
Ch 16: 394-409, 413-422
- XIII. Money Supply, the Fed, and Monetary Policy
Ch 18
- XIV. Fiscal Policy
Ch 17

EXAMINATIONS

Test 1: Thurs, Oct 8
 Test 2: Mon, Oct 26
 Test 3: Thurs, Nov 12
 Test 4: Wed, Dec 2
 Final: Wed, Dec 9 at 7:30-9:20a

PROCEDURES AND GUIDELINES OF THE SOCIAL SCIENCE DIVISION
Revised Spring 2009

Cheating, Stealing and Plagiarizing*

Cheating, stealing and plagiarizing (using the ideas or words of another as one's own without crediting the source) and inappropriate/disruptive classroom behavior are violations of the Student Code of Conduct at Bellevue College. Examples of unacceptable behavior include, but are not limited to: talking out of turn, arriving late or leaving early without a valid reason, allowing cell phones/pagers to ring, and inappropriate behavior toward the instructor or classmates. The instructor can refer any violation of the Student Code of Conduct to the Dean of Student Services for possible probation or suspension from Bellevue College. Specific student rights, responsibilities and appeal procedures are listed in the Student Code of Conduct, available in the office of the Dean of Student Services.

Incomplete

If a student fails to complete all the required work for a course, an instructor may assign the grade of Incomplete ("I"). The student must complete the coursework by the end of the next quarter, or receive the assigned letter grade (usually an "F").

F Grade

Students who fail a course will receive a letter grade of "F."

Final Examination Schedule

The Social Science Division will adhere to the final examination schedule as stated in the BC Schedule. Final examinations will be held at the end of each quarter at fixed times. Instructors will not give examinations in advance of the regular schedule. A student who is absent from any examination held at any time during the quarter may forfeit the right to make up the examination. If, for illness or some other circumstance beyond the student's control, the student is unable to be present at any scheduled examination and has contacted the instructor on a timely basis, the student may be permitted to take such examination at a time designated by the instructor.

Withdrawal From Class

College policy states that students must formally withdraw from a class by the end of the seventh week of the quarter (Registration Office, B125). If a student has not withdrawn by that date, an appropriate letter grade will be assigned for the course.

Hardship Withdrawal

Instructors may assign the grade of "HW" (hardship withdrawal) at their discretion in the event that a student cannot complete the coursework due to extreme and exceptional circumstances. Students may also contact the Enrollment Services office BEFORE grades are assigned in cases of hardship.

Students Who Require Disability Accommodations:

Students with disabilities who have accommodation needs are encouraged to meet with the [Disability Resource Centre](#) (DRC) office located in B132 (telephone 425.564.2498 or TTY 425.564.4110), to establish their eligibility for accommodation. The DRC office will provide each eligible student with an accommodation letter. Students who require accommodation in class should review the DRC accommodation letter with each instructor during the first week of the quarter.

Students with mobility challenges who may need assistance in case of an emergency situation or evacuation should register with [Disability Resource Centre](#), and review those needs with the instructor as well.

Distribution of Grades

Grades will not be posted in the Social Science Division or in faculty offices, and secretaries will not give out grades. Students should access their grades through the BC Web site.

Return of Papers and Tests

Paper and/or Scantron score sheet returns will be arranged in the following ways ONLY: by mail, if student supplies the instructor with stamped, self-addressed envelope (with appropriate postage); or by the instructor designating a time and place whereby the student may retrieve his/her papers. Unclaimed papers and/or Scantron score sheets must be kept by the instructor for a minimum of sixty (60) instructional days following the end of the quarter.

**If you are accused of cheating, stealing exams and/or plagiarism, there is a Bellevue College Student Discipline and Appeals Procedure (the right to due process) which you may pursue. Contact the office of Division Chair (D110), the Dean of Student Services (B231A) or the Associated Student Body (C212) for information regarding the appeals process.*
