Course Description:

This course will focus, from a Geographical perspective, on a range of contemporary issues of major significance to the continued development of life on Earth. This will be achieved by a review of such issues from social, cultural, political and physical systems.

Course Objectives:

To consider environmental, political and social issues which have a geographical dimension on a world scale. To study physical, economic, social, cultural and political processes that underlie landscapes, environments and spatial distributions. Candidates should be able to demonstrate a knowledge and understanding of the interaction of such processes and the contribution that geographical enquiry can make to an appreciation of different cultures as well as a sensitivity to, and concern for, landscapes, people and the environment.

Required Texts: (available at the College Bookstore)

Taking Sides 6th edition, by James Harf and Mark Owen Lombardi: published by McGraw Hill

World Place Locations by Roselle and Walker: published by Cengage

The Comparative World Atlas by Hammonds – this comes packaged with the World Place Location book, however, if you already have a good atlas of your choice then you can ask the Bookstore to sell the World Place Location book without the atlas.

Map Packet Rand McNally (a manila folder of blank maps also available at the college bookstore) this is used in conjunction with the World Place Location book and atlas.

Format:

(a) Five Module Exams- each will be worth 100 points toward the total score = **Total 500 points**

(b) Four Place Location Map Quizzes - each will be worth 25 points toward the total score = **Total 100 points**

(c) Three written submissions – each one will be of 300 words and each will be worth 50 points toward the total score = **Total 150 points**

Total Mark = 750 points (plus 50 points optional Extra Credit – see below)

(a) The Five Modules

The course material is subdivided into **Five Modules**. You should proceed through each Module in the following way.

1. Each one begins with a **Class Notes** section that will highlight and focus on the major components of that particular topic area. Read carefully through this material and make your own notes that highlight the key points. You will be tested on this material in the Module Exam.
2. After completing the Class Notes section you should proceed to the **Case Studies** section. These topics will provide specific illustrative examples of issues discussed within the Class Notes. Again make appropriate notes as you will be tested on this material in the Module Exam.
3. Now turn toward the **Essential Reading** section of the Module. There will be a series of readings that you should study - each has a number of questions that you will need to answer. Complete this section before you progress onto the Module Exam - you will be tested on these questions and your general understanding of the material from the Module in the Module Exam - using a multiple-choice answer format.
4. You should now move your attention to the **Discussion Topics** section. Study the Contents section in the textbook, 'Taking Sides' and as you will see it is divided into 4 Units with a series of 'Issues' in each Unit.
You choose only one of the Issues from three of the four Units and submit a 300 word review – remember - you choose from only three of the total of four Units – you decide which is the most appealing for you to study and review.
5. You are now in a position to answer the **Module Exam**. Before you attempt the exam carefully read through your notes and the answers to the questions from all of the material that you have read. All of the questions on the exam will be taken directly from the questions from the Essential Reading section as well as the Class Notes and Case Study section.

You will only have one chance to do each Module Exam - and once you start you must continue – so remember to 'Save' your answers as you progress through the exam. - you will be limited to 60 minutes.
6. There are in all **5 Module Exams - each of 25 questions - that are all answered online**. You will have access to the Module Exams usually for about one week (a little less in the shortened Summer Quarter) - you must take the exam sometime during this 'open' time period. As you will see - this regimen will help to keep you on target and complete the various exercises in a timely manner.

(b) The Four Map Place Location Quizzes

1) North America: 2) Europe and Russia:

3) East Asia: 4) North Africa and the Middle East:

You will be required to take all of these map quizzes during the first three weeks of the course, but, first take the **Practice Map Quiz** to give you some idea of the format of these quizzes.

There will be 25 multiple choice questions in each quiz. You will be shown a series of maps - each will show you a part of the region under review - and you will be asked 20 questions and you will need to identify which of the multiple choices correctly matches the location of the feature as shown on the map. There will also be a series of 5 questions selected directly from the questions asked in the World Place Location book from the exercises at the end of the unit on each of the four regions that you need to study. Please note that there are 8 regions/units in the book, but, you will only be required to study the 4 regions units as listed above; 1)North America, 2)Europe/Russia, 3)East Asia and 4)North Africa/Middle East.

You will have a limited time of only 10 minutes as soon as you begin the quiz. Be sure to do the Practice Map Quiz first – and you may do this one as many times as you wish. I would recommend that you use the Map Packet of blank maps to help revise for these Map Quizzes (note: there will be more maps than you need supplied in the packet). There are detailed instructions in the World Place Location book to help you to prepare for these map quizzes.

(c) Discussion Topics

You will be required to submit by course email **three 300 word reviews of Issues** that you select from the course textbook, 'Taking Sides.' Having looked over the relevant Unit in the book and chosen one Issue to study you then comment on the viewpoints given and add your own thoughts in a 300 word submission. Remember to choose only one issue to submit from any three of the four Units in the textbook. Please see the Course Calendar for 'deadline' dates for these submissions.

(d) Extra Credit

Extra Credit can be earned in this class. You can earn up to 50 marks toward your total score for the class by submitting a **fourth 300 word review** of any one of the issues in the Unit that you did not study for one of your three Discussion Topics (see above). Please note the 'deadline' date for this extra credit submission is the same 'deadline' as for the Discussion Topic submission from that particular Unit, (so if you choose to submit a fourth review and it is from an issue in Unit 3 – then you must submit by the 'deadline' date for Unit 3).

ONLINE PROCEDURES AND GUIDELINES OF THE SOCIAL SCIENCE DIVISION Revised Fall 2010

Bellevue College's Affirmation of Inclusion

Bellevue College is committed to maintaining an environment in which every member of the campus community feels welcome to participate in the life of the college, free from harassment and discrimination. We value our different backgrounds at BC, and students, faculty, staff members, and administrators are to treat one another with dignity and respect. The college's "Affirmation of Inclusion" is in line with the principle of free speech in a free society: we have the right to express unpopular ideas as long as we don't show disrespect for reasonable people who might believe otherwise. In an online course, you will be expressing ideas through the medium of the course site rather than face to face in the classroom. In that case, these expectations refer to the courtesy with which you communicate with one another through e-mails and e-discussions. Part of this respect involves professional behavior towards the instructor, colleagues, and the class itself.

Cheating, Stealing, and Plagiarizing* and Inappropriate Behavior

Cheating, stealing and plagiarizing (using the ideas or words of another as one's own without crediting the source) and inappropriate/disruptive behavior are violations of the Student Code of Conduct at Bellevue College. Examples of unacceptable behavior include, but are not limited to: plagiarizing material from the Internet and posting rude or personal attacks in discussions. When you are in doubt about any behavior, please consult your instructor. In addition, you may wish to review the general applicable rules of cyberspace, such as in the [Core Rules of Netiquette](#). The instructor reserves the right to remove posted messages, and downgrade assessments as a result of these types of behaviors. The instructor can refer any violation of the Student Code of Conduct to the Vice President of Student Services for possible probation or suspension from Bellevue College. Specific student rights, responsibilities and appeal procedures are listed in the Student Code of Conduct, available in the office of the Vice President of Student Services, [link to Student Code](#).

Incomplete

If a student fails to complete all the required work for a course, an instructor may assign the grade of Incomplete ("I"). It is the student's responsibility for maintaining contact and adhering to the agreed-upon actions. Vista class sites, and material, may not be directly accessible after the end of the quarter so it is important to make arrangements before the quarter ends. The student must complete the coursework by the end of the next quarter, or receive the assigned letter grade (usually an "F"). There is a standard form that instructors have access to in their instructor's grade briefcase.

F Grade

Students who fail a course will receive a letter grade of "F."

Final Examination Schedule

Final examinations may involve proctored on-campus arranged exams or may be administrated completely online at the discretion of the instructor and in keeping with the stated policies provided in the course syllabus. Please refer to the syllabus at the start of the quarter for additional details and contact the instructor directly for any clarifications. A student who is not in compliance with the scheduled format may forfeit the right to make up the examination. If, for illness or some other circumstance beyond the student's control, the student is unable to be in compliance with any scheduled examination and has contacted the instructor on a timely basis, the student may be permitted to take such examination at a time designated by the instructor.

Withdrawal From Class

Academic Year: College policy states that students must formally

withdraw from a class by the end of the seventh week of the quarter (Registration Office, B125). If a student has not withdrawn by that date, an appropriate letter grade will be assigned for the course.

Summer Quarter: College policy states that students must formally withdraw from a class by the end of the fifth week of the quarter (Registration Office, B125). After the sixth day and through the end of the fifth week of the quarter, the “W” grade will become part of the student’s transcript record.

Check [Enrollment Calendar Deadlines, Refunds/Withdrawals](#), for additional details. As with most enrollment deadlines, it is the student’s responsibility to be aware of these dates and act accordingly.

Hardship Withdrawal (HW)

From page 9 of the current course catalog, [2008-2009 online catalog](#), HW indicates a withdrawal request made because of extenuating circumstances after the official withdrawal period is over. The student must contact the instructor to request this withdrawal option, or the faculty member may initiate the contact. No points are calculated into the grade-point average. Students may also contact the Enrollment Services office BEFORE grades are assigned in cases of hardship.

Students Who Require Disability Accommodations:

Students with disabilities who have accommodation needs are encouraged to contact the [Disability Resource Centre \(DRC\)](#). The office is **located in B132 (phone 425.564.2498 or TTY 425.564.4110, email drc@bellevuecollege.edu)**. Students will need to establish their eligibility for accommodation. The DRC office will provide each eligible student with an accommodation letter or contact your online instructor directly by email. Students who require accommodation in a course should review the DRC accommodation letter with each instructor during the first week of the quarter.

Distribution of Grades

Students should access their grades through the BC Web site. Any returned material should be accessed prior to the end of the quarter. After the end of the quarter, Vista class sites may not be accessible by students. Individual instructors may use non-Vista tools for recording and maintaining the students’ progress. Questions about grades assigned should be initially directed to your instructor.

Submission and Returning of Papers, Assignments and Assessments:

Specific guidelines for taking exams and submitting assignments are published in the syllabus. Please contact instructor at the start of the quarter for any clarifications.

Technical Assistance

Vista-related or technical issues should be referred to [Distance Education](#).

You may also email them at landerso@bellevuecollege.edu or

call **425-564-2438 (1-877-641-2712)**.

Vista tutorial help and basic instructions can be found at <http://bellevuecollege.edu/distance/studentguide/>

**If you are accused of cheating, stealing exams and/or plagiarism, there is a Bellevue College Student Discipline and Appeals Procedure (the right to due process) which you may pursue. Contact the office of Division Chair (D110), the Vice President of Student Services (B231A) or the Associated Student Body (C212) for information regarding the appeals process.*
