Course Title: Introduction to Economics: Macroeconomics

Course Number: ECON 200

Credit Hours: 5

Prerequisites: 30 prior college credits recommended. Meeting times: Tuesday, Thursday; 5:30 pm-7:40 pm

Instructor name: Bruce Christopherson Social Sciences Division Office: D 110

Office location: D 110

Office phone number: 564-2370

Office hours: By Appt. Email: bchristo@bcc.ctc.edu

Textbook: <u>Macroeconomics</u>, 6<sup>th</sup> ed., Colander Supplementary material: Practice test package

Course description: Presents major theories of business cycles and economic growth. Students examine economic policies aimed at controlling inflation and unemployment in an industrialized capitalist nation as well as factors in international trade and monetary flows. It may also cover the development policies of underdeveloped countries.

## Course Outcomes

By the end of the quarter, students will be able to do the following:

- Correctly identify reliable sources and be able to calculate the primary summary statistics used to
  evaluate macroeconomic performance: real GDP, unemployment rates, inflation measures, labor
  productivity, money measures, interest rates, and the federal budget position. Have the ability to
  read and interpret the reasonableness of these data as presented in charts and tables.
- Understand the key components (consumption, investment, government expenditures and net trade) of GDP for an open, mixed economy and how these relate to the flow of resources, national income and goods through an economy.
- Identify and describe the processes a central bank uses to implement monetary policies
- · Identify and describe the components of fiscal policy as enacted by the federal government
- Evaluate policies, within different time horizons, for their influence on business cycles, long-run
  growth, productivity and for various responses to external shocks to the economic system (growth
  and stability)
- Understand how the internationalization of our economy has changed the outcomes and choices of our domestic economy (including exchange rates, trade in goods and factors)

In addition, students may be introduced to a subset of the following:

- Explain the evolution of US capitalism from the Great Depression to the present and identify the major events that contributed to shifts in economic policy.
- Role of expectations, risk and uncertainty in modifying outcomes of actions, especially with respect to consumption and tax policies
- Short-term trade-offs of Phillips curve, Okun's and Gresham's Laws, and Taylor Rule
- · An awareness of the competing macro theories and models
- A comparison of summary statistics with other countries' performance
- A discussion of how such measures, outcomes, and policies would be adjusted for lesserdeveloped countries

"2" in General Education ratings for "critical thinking" and for "Quantitative and Logical Reasoning" and "Writing" as well as 1s in 7 other areas.

Commented [b1]: Change?

## Course topics to be covered:

<u>Topic</u>	<u>Chapter</u>	<u>Topic</u>	<u>Chapter</u>
<u>Overview</u>		AS-AD	_
Introduction	1	Aggregate Demand	9
Macro vs Micro Scarcity & Choice	1	Aggregate Supply AS & AD	9 9
Opportunity Costs	ı	AS & AD	9
Positive vs Normative	1	Aggregate Expenditure Model	
Production Possibilities	2	Consumption	9
Production Constraints		MPC	
Comparative Advantage	2	Consumption Equation	
Supply & Demand	4	Determinants	11app A
Economic Systems	3	Investment	9
Capitalism		Determinants	
Socialism		Planned Investment	40

Midterm 2

## Approximate exam dates:

```
Midterm 1; Oct. 18 (tentative)

Midterm 2; Nov. 8 (tentative)

Midterm 3; Dec. 4 (tentative)

Final; Dec. 11

Approximate paper due dates:

Paper 1; Oct. 9 (tentative)

Paper 2; Oct. 25 (tentative)

Paper 3; Dec. 11 (tentative)
```

# Commented [b4]: 19th class night Commented [b5]: 5th class night Commented [b6]: 10th class night

Commented [b2]: 8th class night

Commented [b3]: 13th class night

Commented [b7]: final exam night

## Number of exams: 4

Types of exams: Multiple choice

Other graded material/assignments: 3 papers

Percentage points for course grade:

Midterm 1;	16%
Midterm 2;	16%
Midterm 3;	16%
Final;	26%
Paper 1;	7%
Paper 2;	7%
Paper 3;	7%
Class participation;	5%
Total percentage points;	100%

Makeup exams: One makeup test is allowed by arrangement <u>prior</u> to the missed test, but one point will be deducted from the score. If a midterm is missed without prior arrangement, that test grade will be replaced with a grade .5 lower than the lowest grade of the other 3 tests (2 midterms and final). The final must be taken in order to receive credit for the course.

Cheating on an exam will result in a failing grade for the class.

# Example calculations of course grade:

This person got a 2.5, 3.2, and 2.7 on the 3 midterms, 2.5 and 3.5 on the papers, 3.4 on the final, and a 3.0 for class participation. The course grade is calculated as:

```
midterms papers final participation .16 \times (2.5 + 3.2 + 2.7) + .105 \times (2.5 + 3.5) + .26 \times 3.4 + .05 \times 3.0 = 3.0
```

## Decimal-letter grade conversion

3.8 - 4.0	a	1.8 - 2.199	С
3.5 - 3.799	a-	1.5 - 1.799	C-
3.2 - 3.499	b+	1.2 - 1.499	d+
2.8 - 3.199	b	0.8 - 1.199	d
2.5 - 2.799	b-	0.5 - 0.799	d-
2.2 - 2.499	C+
