5. Exams are closed book and a 3 by 5 inch card is allowed.

Lum Powerpoints

The **powerpoints focus on tips and techniques to complete the transactions**. They are short and quick, therefore you may have to view them more than once to grasp the skill sets. Students find that it is helpful to review powerpoint before exams.

Chapter 1

Chap 1 Introduction

Why accounting is important to your life. It is!!

Chap 1 Financial Statements

Explanation of why financial statements are important. Using Costco, a merchandising firm or retailer as an example, this ppt explains how business models and processes relate to a company's success. It describes the components of the balance sheet (assets, liabilities and equity) and shareholder's equity. Explanation of income statement, statement of shareholder's equity (retained earnings particularly) and cash flow statement. Description of how financial statements fit with each other. Brief overview of GAAP.

Chap 1 Legal Forms

ACCT& 201 – Leslie Lum
Fall ONLINE 2017 Course Syllabus Online

The three major legal forms (sole proprietorship, partnership and corporation) are explained with their advantages and disadvantages.

Chapter 2

Chap 2 Financial Ratios

In the classified balance sheet current assets (used within one year or operating cycle) are group together and totaled. Next comes long-term investments not used for operations. Then long term assets used for operations. Intangible assets is a new category which are assets without physical substance. Liabilities are also broken out to current liabilities and long term liabilities. Equity is subtotaled separately. Then total liabilities and equity are totaled. The classified balance sheet allows analyst to do ratios to evaluate liquidity and solvency.

The financial ratios covered are growth (year-to-year revenues and net income), profitability (gross margin, net margin), liquidity (current ratio, quick ratio, working capital), inventory turnover, receivables turnover and debt to asset. Financial ratios allow analysts to compare companies to other companies.

Chapter 3

Chap 3 Processsing Accounting Information

An introduction to the concepts of the accounting cycle, debits, credits, t-accounts and normal balances. Assets and expenses have debits as the normal balance (increase side). Liabilities, Equity and Revenues have credits as the normal balance (increase side).

Chap 3 Recording Accounting Information

The first four steps of the accounting cycle are to analyze, journalize, post to the account, and compile the trial balance. Using the same transactions from Jeff Bezos and Amazon, this video demonstrates how this is done.

Chap 3 Accrual Basis Accounting

The next two steps of the accounting cycle to make adjusting entries and compile the adjusted trial balance. This video provides descriptions of deferrals, accruals and adjustments and how they relate to GAAP. Changing some of the transactions from the Jeff Bezos and Amazon story, deferrals and accruals are demonstrated.

Chapter 4

Chap 4 Closing

The last three steps in the accounting cycle are covered here. The income statement is prepared. Then net income is brought to the retained earnings statement along with dividends. Then the balance sheet is compiled. In closing, use is made of the income summary account which is brought to retained earnings along with dividends. The post-closing trial balance is carried over to the next period.

Chapter 5

Chap 5 Periodic Merchandise Inventory Accounting

Describes how to categorize, journalize and post transactions for businesses that use periodic inventory. In Periodic, the cost of goods sold is calculated at the end of the period. The purchase, purchase returns and allowance, purchase discount and freight in accounts are used to accumulate transactions during the period and they are added to beginning inventory (purchase and freight in) or subtracted (purchase returns and allowances and discounts) to come to cost of goods available for sale. Then ending inventory is subtracted to come to cost of goods sold.

ACCT& 201 – Leslie Lum
Fall ONLINE 2017 Course Syllabus Online

Chap 5 Multiple Step Income Statement

Describes how net sales (gross sales less sales returns and allowances/sales discounts), gross profit (net sales less cost of goods sold), operating profit (gross profit less operating expenses) and net income or profit is determined.

Chapter 6

Chap 6 Inventory cost flow

Describes how to do FIFO, LIFO and average cost flow in periodic inventory.

Chapter 7

Chap 7 Internal Control

Principles of internal control.

Chap 7 Cash Reconciliation

Describes how to reconcile cash in bank and book (company) balances.

Chap 7 Cash Management

Reviews cash flow statement and cash budgeting.

Chap 7 Cash Control

ACCT& 201 – Leslie Lum

Fall ONLINE 2017 Course Syllabus Online

Control principles in cash.Company Analysis

Student Code

Cheating includes, but is not limited to, copying answers on exams, glancing at nearby exams, turning in assignments or papers that have been used in other classes, and giving or receiving help during an exam. Cheating includes, but is not limited to, purchasing or selling notes, assignments or examination materials. Having a cell phone in view for any reason during an exam will result in a zero in the exam.

Stealing includes, but is not limited to, taking the text, notes, exams, library books or other personal property of others without their permission.

Plagiarism is presenting the words, ideas, and/or work of others as if it is an individual's own work. It includes, but is not limited to, using other's papers as one's own and including parts of published works without giving credit where credit is due.

If you choose to cheat, steal or plagiarize, or if you assist anyone in cheating, the following actions will be taken:

You will receive zero on the assignment or assessment.

A report of the incident will be forwarded to the Dean of Student Services. He/she may file the report in your permanent record and/or take further disciplinary action.

If you feel you have been unfairly accused of any of the above, you may appeal. For a description of due process, see WAC 132H-120, available in the Dean's office.

"Cheating, stealing and plagiarizing (using the ideas or words of another as one's own without crediting the source) and inappropriate/disruptive classroom behavior are violations of the Student Code of Conduct at Bellevue College. Examples of unacceptable behavior include, but are not limited to: talking out of turn, arriving late or leaving early without a valid reason, allowing cell phones/pagers to ring, and inappropriate behavior toward the instructor or classmates. The instructor can refer any violation of the Student Code of Conduct to the Vice President of Student Services for possible probation or suspension from Bellevue College. Specific student rights, responsibilities and appeal procedures are listed in the Student Code of Conduct, available in the office of the Vice President of Student Services."
