An assignment received AFTER THE TIME THAT THE OTHERS HAVE BEEN submitted WILL BE CONSIDERED LATE AND LOSE 5 points! If the assignment is submitted in the next day, an additional 10% will be deducted. NO ASSIGNMENTS WILL BE ACCEPTED AFTER 1 SCHOOL DAY HAS PASSED. <i>Hint: If you think you'll have trouble with this policy, turn in your assignments one day EARLY. If you are going to be late/absent on a due date, upload your assignment to Canvas.</i>

Learning Outcomes.

1. Identify the purpose and uses of financial accounting
2. Apply basic accounting principles and assumptions to business transactions
3. Employ double-entry bookkeeping to record and report on basic business operational transactions in an accounting system
4. Describe the impact of basic operating transactions on a business's financial position
5. Critically analyze a business's financial position and operational results
6. Discuss the origins of fraud and means by which a business may protect itself from it
7. Demonstrate business communications skills through a variety of assessments such as team assignments, oral presentations, and written documents

My Advice: *This is a TIGHTLY-SCHEDULED and FAST-PACED course. The materials involve learning the language of business – accounting, and the transactions needed to track a business, and how to do a rudimentary analysis of a business. We have no time to take a break or revisit material – it is VERY HARD to catch up if you slack off. Having said that, please contact me EARLY if you need extra help and I will try to arrange this.*

My Background. Judith Paquette, CMA (Certified Management Accountant, 2004), MBA: Golden Gate University, San Francisco, BS (California State University, Fresno)--major: Business, minor: Mathematics. 14 years of accounting and auditing industry experience with four companies, including two Fortune 200 companies: Industries included retail (Gottschalk's), semiconductor (Motorola), heavy duty trucking (PACCAR), wireless phone service (Western Wireless). Teaching since Fall 1997, fulltime since Fall 2002. **Why did I leave Corporate America?** Although I loved the work (and the pay!), I love teaching more.

WITHDRAWAL POLICY. If you decide to drop the class, it's okay. Students who do not officially withdraw will have their grade calculated on the number of points earned divided by the total possible points assigned for the entire quarter. Please act responsibly and officially withdraw from any classes you choose not to complete. Unless you **formally** drop by the deadline (I think it's the end of the 7th week from the start of the quarter, but check the course schedule to be certain), you will receive an F grade, with 0.0 grade points. There may be a situation that warrants an NC grade, which does *not* put grade points on your record. If you reach this point, see me.

Please note: THE LEGAL STUFF: This syllabus was constructed as a tentative plan for how the course will proceed. A number of conditions and circumstances may arise which can alter the topics, schedule, activities, materials, etc. The faculty member reserves the option to make any changes, as she deems necessary.
