<sup>\*\*</sup>To be eligible for a BC clinical practicum, you must be admitted to the advanced certificate program. This provides us with the opportunity to get to know you and to accumulate the necessary documentation (immunizations, background checks, pre-employment modules, etc.) required by our clinical partners. This takes a few months to complete, before we can assign you to a clinical site.

We offer other post-primary certificates, including positron emission tomography, mammography, interventional radiography, and breast ultrasound.

Bellevue College does not discriminate on the basis of race, color, national origin, language, ethnicity, religion, veteran status, sex, sexual orientation, including gender identity or expression, disability, or age in its programs & activities. Please see policy 4150 at **bellevuecollege.edu/policies**/. The following people have been designated to handle inquiries regarding non-discrimination policies: Title IX Coordinator, 425-564-2641, Office C227, & EEOC/504 Compliance Officer, 425-564-2178, Office R130.

<sup>\*&</sup>quot;Not through BC" usually means that your employer will let you train in the post-primary modality under its insurance. The institution or employer is accepting the liability of you as a trainee. This is the most important question to ask when you are exploring this option.
