

24-25 Academic Courses for Neurodiversity Navigators program

Designed according to the social justice and intersectionality models of disability, Navigators provides neurodivergent students with educational opportunities for strengths-based self-knowledge in the four program areas of focus: **Self-Advocacy, Self-Regulation, Social Interaction, and Executive Functioning**; increasing personal ability to succeed in academics, campus services, and community and career options. Courses are taken alongside the student's chosen degree program, and often count towards that degree.

SUMMER: FYS 101: Neurodiversity Cohort – 3 credits (tuition-based)

The First Year Seminar equips students to thrive by exploring their identities and communities through a social justice lens; mapping out their professional, educational, financial, wellness, and social goals; and developing professional and academic skills alongside personal wellness practices. FYS 101 is required for most incoming Bellevue College students, the cohort section is required for participation in Neurodiversity Navigators.

First Year: Personal Strengths for College and Career Focus – 2 credits (fee-based)

Fall [EXPRL 180 Skills for Navigating College & Career](#): Introduce and explore four areas which may be difficult for students: executive functioning, social interaction, self-advocacy, and self-regulation. This includes learning to identify strengths and barriers, as well as strategies for success. 2 credits

Winter [EXPRL 182 Executive Functioning in the Workplace](#): Expands on information learned in EXPRL 180. Includes exploration of planning, organizing, strategizing, paying attention to and remembering details, and managing time and space. Learn to use strengths to obtain real-life success at school, work and in relationships. Gain a deeper understanding of how one's executive functioning profile can be an asset in certain tasks and types of work. 2 credits

Spring [EXPRL 181 Self & Community Advocacy](#): Expands on information learned in EXPRL 180. Presents concepts and skills related to self-advocacy. Students learn to identify when, where, how and to whom to advocate. Students discuss current community and personal events, and the impact this has on their lives and work. 2 credits

Second Year: Skills and Character Strengths for Career Focus – various (tuition-based)

Fall [EXPRL 280 Who Am I, Where Am I Going?](#): Provides students with a framework to identify and articulate strengths, with a focus on vocation, avocation, and connecting interests to long-term goals. Students create concrete plans for reaching aspirations. 3 credits

Winter [EXPRL 281 Connecting with Community](#): Discover communities both social and career-oriented that you belong to or would like to join. Learn different ways of safely connecting with communities and meeting people in them. Build and maintain your community identities and reputation and learn how those identities support you in achieving your goals. 2 credits

Spring [CMST 210 Interpersonal Communication](#): Focuses on effective interpersonal communication in relationships through lecture, class discussion, and activities. Topics addressed include culture, language, nonverbal communication, listening, perception, and conflict management. 5 credits (recommended prerequisite ENG 101)
