## Asia Pacific Language School (APLS)

APLS was established in 1995 to provide **Chinese** and **Japanese** language classes and is a private school certified by the Washington State Board of Education and a childcare center licensed by the Department of Early Learning.

Our goal is to create a multilingual and multicultural learning environment in which children of all ages can explore and learn the Chinese or Japanese language. At APLS, we believe that each child can learn and master a second language. The gift of a second language will give our children an advantage for future opportunities in the globalized society.

Our dual-language Kindergarten and First Grade classes provide accredited courses for children to pursue academic success along with a second language (Chinese or Japanese).

We are located in **Bellevue** and within minutes from Newcastle, Issaquah, Redmond, Kirkland, and Mercer Island.
