The Digital Media Arts associate degree provides students the opportunity to gain fundamental skills in the application of digital tools to video, games, animations, design and graphics in a project-based, hands-on environment. A range of elective options supports individual educational and employment goals. Students who have completed the degree should have a strong portfolio, workplace skills and trans-media competency. Robust faculty mentoring and frequent portfolio review support students as they prepare to continue their studies or pursue work as freelance artists or as employees.

- Plan, create and maintain a professional portfolio highlighting and marketing skills and capabilities. Present this portfolio via websites, blogs, and social media
- Collaborate and communicate in ways that support design team and/or group
- Accurately describe the phases of production (pre, production and post) as well as the project management tasks inherent in each phase

LEARNING OUTCOMES

Degree recipients should possess the skills & abilities described below:

- Effectively use a variety of tools and processes for producing contemporary forms of digital media
- Effectively use multiple contemporary media delivery platforms and delivery systems
- Use a cluster of industry standard applications to create digital media
- Use current industry standards of production, design, and function within a chosen area of specialization
- Apply coursework and area of specialization towards transitioning from school to working in the industry
- Identify career ladders and options for further education
