The bachelor of applied science in Healthcare Technology and Management with a concentration in Healthcare Informatics (BAS) is a career-oriented bachelor degree program designed to prepare individuals to successfully compete for jobs that require knowledge of the healthcare system, information technology knowledge and skills, and supervisory or management skills.

The degree program is designed for individuals with IT and/or healthcare preparation and experience. The first 90 credits of the degree are fulfilled by entrance prerequisites. The second half of the degree program offers a professionally relevant curriculum that helps students achieve their goals.

**LEARNING OUTCOMES**

**Degree recipients should possess the skills and abilities described below:**

- Apply knowledge of current and emerging data standards and principles of interoperability
- Apply project management processes and tools in the context of complex IT projects and teams, and in the midst of changing and conflicting demands
- Comply with all healthcare laws and regulations relating to information security, privacy and protected health information, and meet institutional accreditation and certification requirements
- Contribute to systems integration and perform information technology systems customization to meet the needs of the healthcare organization
- Contribute to process improvement through the redesign of healthcare workflow and information management practices to better leverage the capabilities of new information technology systems
- Gather, identify and document requirements for technology solutions, working closely with clinical and non-clinical stakeholders and considering privacy, regulatory, efficiency and security issues
- Manage, analyze and present healthcare data for effective decision-making in support of a wide array of healthcare practices such as meaningful use initiatives, patient safety studies, and revenue cycle management
- Serve as liaison between technical and clinical functions to support users, including training and documenting the use of new technologies

**DEGREE REQUIREMENTS**

**A complete description of the required curriculum is shown in the worksheet. In addition to eligibility requirements, students must also achieve the following:**

- Completion of 95 quarter credits in the general program and concentration requirements, with a grade of "C," or better
- A minimum cumulative GPA of 2.0 for all coursework taken at BC and the courses applied to the degree, including credits transferred from other colleges
- At least 45 quarter credits for the degree must be completed in residence at BC, of which 30 credits must be upper division

**PROGRAM ELIGIBILITY**

**Individuals must have:**

- An associate's degree in an information technology related - or healthcare related - field, or equivalent credits, to be eligible for the BAS degree
- In addition, applicants must have completed the following courses or their equivalents with a grade of 2.0 or higher from a regionally accredited college:
  - English Composition I
  - Technical or Research Writing
  - College-Level Math: Statistics
  - Natural Science: two courses must include at least one lab course and at least one life sciences course
  - Communication (may fulfill humanities or social science requirement: check with an advisor)
  - Humanities
  - Social Science

**APPLICATION PROCESS**

**To be considered for the bachelor of applied science in Healthcare Technology and Management with a concentration in Healthcare Informatics, prospective students must submit the following:**

- Completed bachelor of applied science application form
- Nonrefundable application fee of \$125
- Official transcripts from regionally accredited college(s), demonstrating completion of an appropriate associate's degree or equivalent credits, and the prerequisite courses, with a GPA of 2.0 or higher

**TUITION**

The Bachelor of Applied Science in Healthcare Technology and Management with a concentration in Health IT is a self-support program and therefore does not necessarily follow the upper division tuition schedule published in the college catalog and quarterly schedule. Tuition includes applicable college and course fees, plus current per credit rates published online at [www.bellevuecollege.edu/enrollment/tuition/](http://www.bellevuecollege.edu/enrollment/tuition/). These courses are not eligible for tuition waivers.
