BELLEVUE COLLEGE

Mobile Technologies

Certificate of Completion

STUDENT NAME		SID #	
PROGRAM CHAIR		DATE	

PROGRAM REQUIREMENTS			Requested Substitution/Transfer Credits (if applicable)					
Course	Course Title	CR	College/University	Course	CR	Grade	Quarter	Year
CORE COURSEWORK								
PROG 270	Introduction to Mobile Computing Technologies	5						
PROG 272	Implementing a Mobile Solution	5						
TOTAL		**10**						

This is an advanced certificate designed for students who have knowledge of object oriented programming. The certificate introduces students to the world of mobile computing technologies and prepares them to design, develop, test and deploy mobile applications. Students are prepared for the increasing number of software development positions involving mobile applications.

LEARNING OUTCOMES

Certificate recipients should possess the skills & abilities described below:

- Compare and contrast current mobile computing technologies including various platforms and usability
- Describe the connectivity and security issues associated with mobile devices
- Use simple server services to provide application data
- Design, write, compile, debug and execute well-engineered and maintainable mobile programs using object oriented programming techniques
