The BAS concentration in Diagnostic Medical Sonography is designed for individuals who have completed diagnostic medical sonography educational programs and want to advance their knowledge and skills within this specialty.

The curriculum is designed to teach students the essentials of leadership, an overview of the business and administrative functions in healthcare, along with advanced ultrasound imaging expertise. Graduates in this concentration will be qualified as managers and administrators and acquire the clinical expertise to obtain additional credentials within Ultrasound.

The degree includes 180 credits, 55 of those included from the national certification and 35 from prerequisite/co-requisite work.

LEARNING OUTCOMES

Degree recipients should possess the following skills and abilities:

- Apply administrative and business skills to solve problems, evaluate outcomes, and assess quality and performance in healthcare settings
- Demonstrate an understanding of leadership, ethical and multicultural issues as they pertain to healthcare
- Apply effective communication and management practices in healthcare settings
- Apply economic and financial management principles to healthcare organizations
- Apply advanced skills and concepts in clinical ultrasound imaging.

PROGRAM ELIGIBILITY

Individuals must have:
