BTS 161	Business Software Essentials (5 Cr)							
CS 101	Technology and Computer Science (5 Cr)							
IT 101*	Introduction to Information Technology (5 Cr)							
TOTAL		48-57						
* Standard department recommendation. Alternative choices are accepted, to support students' educational and professional goals.								
**See Catalog for defined prerequisite or placement standards.								

The Medical Administrative Assistant program prepares students to serve in integral roles in the medical office. The program prepares students with core knowledge to understand the general medical profession. This program further specifies knowledge and skills to function in an administrative capacity with reception, basic medical documentation, basic medical billing & coding and electronic medical record keeping.

LEARNING OUTCOMES:

Certificate recipients should possess the following skills & abilities:

- Read, spell, understand and pronounce basic terms of medical terminology and apply them appropriately
- Demonstrate competence in operating a personal computer system and its applications
- Communicate respectfully and professionally with co-workers, health care professionals, customers, patients, and their families
- Practice responsible and confidential communications and apply an understanding of laws and ethics as required in health care practice
- Recognize and respect cultural influences and perceptions
- Work within an integrated system of jobs and professions that make up the health care delivery system
