Medical Billing and Coding program will serve the growing need for medical coders and billers as we experience the implementation of the Affordable Care Act, the transition to ICD-10 and electronic coding systems, the legal requirement for increased medical documentation, and the increasing age and retirement rate of the coding workforce. This program utilizes the core health professions courses we already have in place, with the addition of supplemental specialty skill courses. No previous medical office experience is required to enter the program.

LEARNING OUTCOMES:

Certificate recipients should possess the following skills & abilities:

- Be prepared to obtain an entry-level position in their field
- Be prepared to work in ambulatory settings performing administrative and clinical duties
- Meet CAAHEP Standards in the areas of cognitive and psychomotor skills
- Be prepared to pass credentialing and state exams and/or requirements

- Demonstrate critical thinking, teamwork, communication, intercultural appreciation, and technical and information literacy skills
- Meet Social Science, Humanities, Written Communication, and Quantitative Reasoning distribution area outcomes
